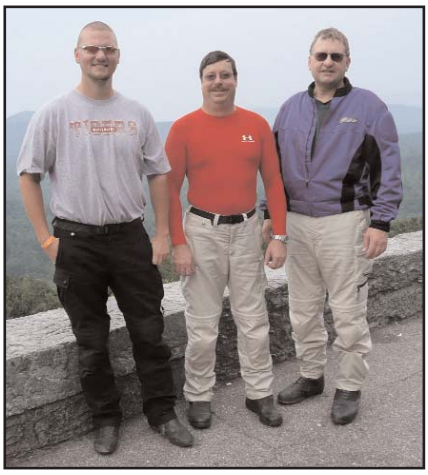
RPW Motorcycle Accessories Division keeps getting bigger and better! Late last year, we acquired Marsee Products, which manufactures world class tank bags, bar bags, seat bags, and more. Marsee Products is the perfect complement to our Helen Twowheels Super Packing System. We are one of the largest Red Line Oil distributors in the country and are also stocking the complete line of Lucas Oil Products. With feedback from our customers, we started a camping products section and now have innovative tents and an UltraLite cot designed specifically for motorcyclists. In addition, we have stocked our warehouse with a diverse group of products that we have found useful for maintaining our bikes and enhancing our riding experience.

Check our website for the latest news and information, as well as to sign-up for our e-newsletter. We also welcome you to stop in and see us in Indianapolis!



David Volk (Sales), Jack Borsos (General Manager) and Tom Volk (President) on a recent motorcycle trip to Colorado.

We appreciate your business and look forward to a great riding season!

Marsee 12 Liter Tear Drop Tank Bag Expandable

NEW FOR 2009

Mounting: The new Marsee 12 Liter Tear Drop Tank Bag utilizes for the first time "Quick Release Mono Buckles". These unique buckles permit three different ways to mount the tear drop tank bag. Four straps are included with loops at one end so the bag can be mounted to trellis framed bikes. A second set of straps are included that allows the bag to be mounted in the conventional quick release mounting method. The mono buckles can rotate about 90 degrees, which allows the bag to also be used as a temporary seat bag, with the straps lacing under the seat.

Waterproof map pocket is perfect for maps or electronics. Reflective piping adds low light conspicuity.

Tank Bag Features: The contoured shape of the bag makes it a natural for almost any tank with a gradual slope, from Harley's to Honda's. The bag's 4" of expandability can be adjusted in height by the compression cords and cord locks on each side of the expansion chamber. The interior is made from a waterproof silver fabric that makes dark objects inside the bag more visible. The inside of the lid has an organizer area with two zippered pockets, two mesh pockets, as well as an I.D. tag holder with I.D. card.

External Features: Externally there are three D-rings to attach additional items to plus two for attaching the enclosed adjustable dual pivoting shoulder strap (included with the bag). There is a hydration clip located on one side of the bag and the Marsee Hydration System can be stowed in the bottom section of the removable base. The map pocket is removable by way of a waterproof zipper. Under the map pocket is a form fit, closed cell foam piece which can be cut to shape and accept a storage space for GPS, cell phones, etc. The main bag entry has a waterproof zipper with internal storm flap. The perimeter of the bag has reflective piping for low light conspicuity. The end pocket close to the rider has a unique upper and lower compartment, the top for coins, glasses, credit cards, etc. and the bottom pocket stores the standard rain cover. The rain cover has a clear top for reading the map even when the rain cover is in place and a draw cord and cord lock secure the bag at the bottom. Below the end pocket is a waterproof zippered hidden storage sleeve that is 9 inches deep for storing important documents.

Expanding the bag adds 4" in height.

The 360 degree zippered removable base has a non-slip, non-abrasive bottom. Pads are used to rest the mono buckles on to help protect the tank. The base has an additional seam sealed map pocket which permits the base to be used on day trips where the tank bag may not be needed. Underneath the map pocket is an additional storage slot for items such as the Marsee Hydration System or even a Marsee Wallet. The molded handle is removable and adjustable and can be stored in a side pocket if desired. Strong 1680 denier waterproof fabric is used externally and all hardware is top quality, just like the Marsee Bag.

Interior organizer and silver colored interior makes objects easier to find.

Dimensions:
Base of bag: 12" Long, 8-1/2" to 10" wide
Height: 6" to 9", expanded adds 4" overall to the height

Features:
- Silver-lined interior for easy visibility
- 4" of expandability
- Zip-off map pocket
- Inside Organizer area
- Includes raincover

MAR-12DQR ..... **12L Tear Drop Quick Release** **$150.00**

MAR-12DQR-B ..... **12L Tear Drop Quick Release with Electrical Kit B** (see page 9 for kit explanation) **$230.00**

Marsee 10 and 15 Liter Tank Bags Features

Our 10 and 15 Liter Tank Bags are triple layer molded for strength, flexibility and water resistance. Installed on the tank bags is an injection molded 2.0mm polycarbonate lid to provide ultra clear transparency to maps or other items stored in the Marsee tray. Polycarbonate is noted for its impact strength, clarity and resistance to the forces of nature. The Marsee tray is designed to hold communication and electronic gear, maps, etc. The Marsee tray helps protect such items from the elements of nature and places such items at the finger tips of the operator. The Marsee tray has two egress ports from the bottom of the tray, plus two exit ports at the front of the tray. Optional Powerlet products bring the power to the bag (see page 9 for Electrical Kits A and B). Patents applied for on clear lid and tray.

Strong, yet semi-flexible polyprophylene molded handle is lighter in weight and is partially recessed to create a slimmer, less obtrusive bag

Additional map and important document storage is located in a clear vinyl pocket in the top of the zip off base (magnetic and quick release mounts only). This pocket has a water resistant zipper.

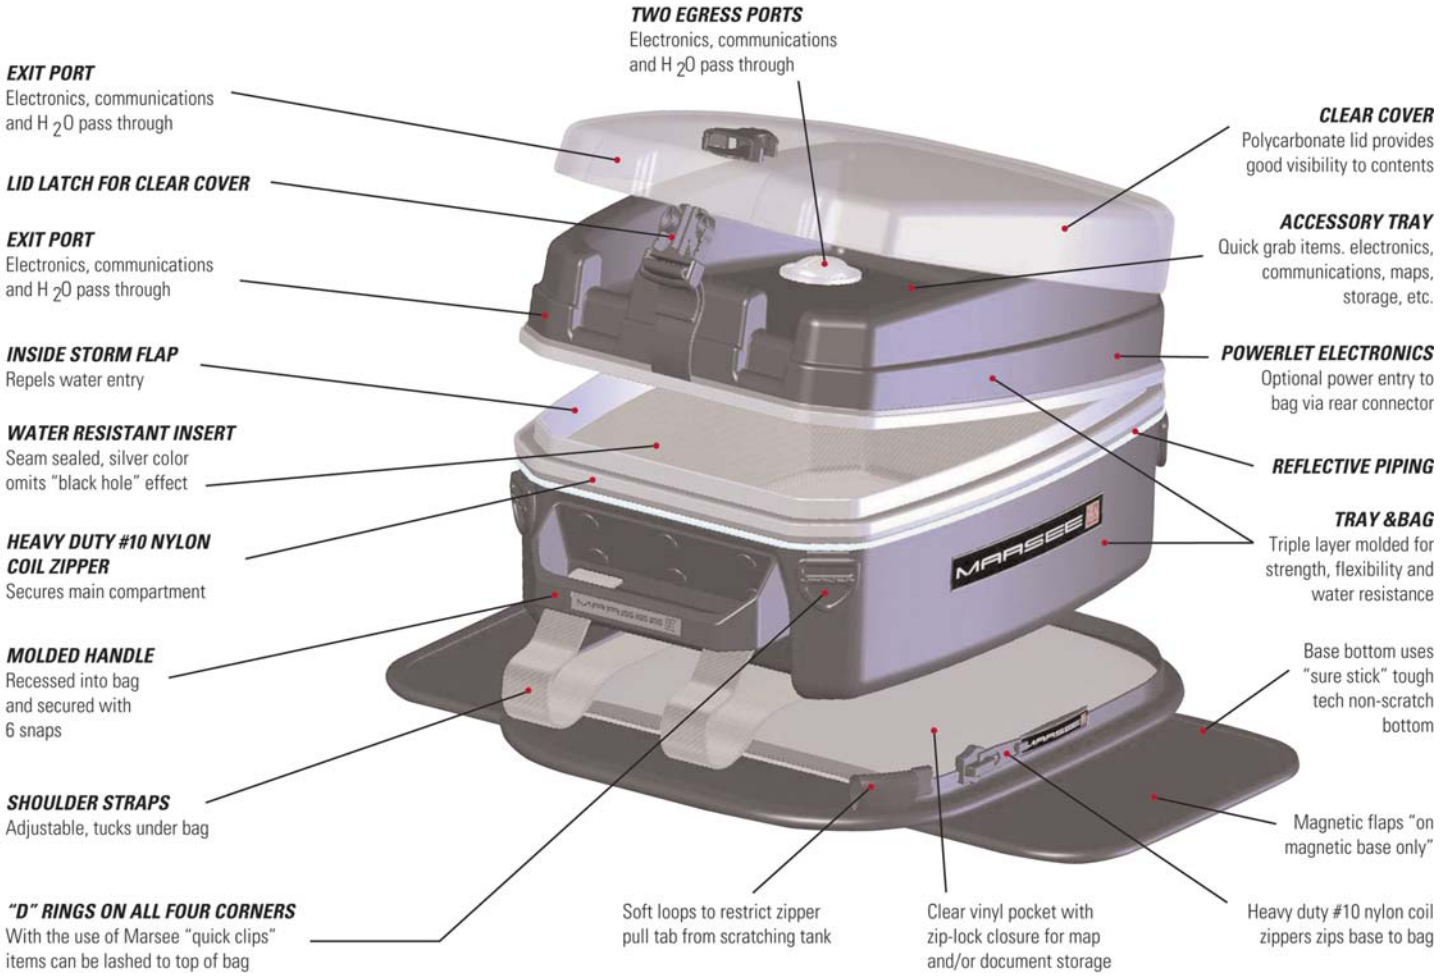
Inside storm flap keeps weather out. Silver colored, seam sealed interior prevents water entry. The top lid is triple laminate EVA, so interior is very water resistant. Silver interior eliminates the “dark hole” appearance and makes it easier to find dark objects inside the bag.

Each bag has an organizer area on the inside cover.

Elongated slots on the bottom of the Marsee molded handle are used as a mounting point for an adjustable shoulder strap, which stores conveniently between the tank bag and the base.

The corners of the tank bag are chamfered to create an “octagonal” shape. This shape eliminates sharp corners for better rider arm and handlebar clearance. On all 4 corners of the tank bag and in the middle, back of the bag are Marsee D-rings, to lash down items such as gloves etc.

Marsee 10 and 15 Liter Tank Bags Features and Mounting Options



TWO EGRESS PORTS
Electronics, communications and H 2O pass through
EXIT PORT
Electronics, communications and H 2O pass through
LID LATCH FOR CLEAR COVER
EXIT PORT
Electronics, communications and H 2O pass through
INSIDE STORM FLAP
Repels water entry
WATER RESISTANT INSERT
Seam sealed, silver color omits "black hole" effect
HEAVY DUTY #10 NYLON COIL ZIPPER
Secures main compartment
MOLDED HANDLE
Recessed into bag and secured with 6 snaps
SHOULDER STRAPS
Adjustable, tucks under bag
"D" RINGS ON ALL FOUR CORNERS
With the use of Marsee "quick clips" items can be lashed to top of bag
CLEAR COVER
Polycarbonate lid provides good visibility to contents
ACCESSORY TRAY
Quick grab items. electronics, communications, maps, storage, etc.
POWERLET ELECTRONICS
Optional power entry to bag via rear connector
REFLECTIVE PIPING
TRAY &BAG
Triple layer molded for strength, flexibility and water resistance
Base bottom uses "sure stick" tough tech non-scratch bottom
Magnetic flaps "on magnetic base only"
Heavy duty #10 nylon coil zippers zips base to bag
Soft loops to restrict zipper pull tab from scratching tank
Clear vinyl pocket with zip-lock closure for map and/or document storage
MARSEE

Mounting options include:

Corona Mounted Tank Bags- utilizing the fuel cap ring as the mounting point permits the tank bag to virtually float above the tank. It is easy on and off (patent applied for). Available for BMW, Honda, Ducati and Triumph.

Magnetic Base Mounted Tank Bags- Marsee invented the magnetic tank bag in 1976, since then it has become one of the most popular mounting options.

4 Point Quick Release Mounted Tank Bags- Easy to install and easy to disconnect and 25% more stable than 3 point mounted systems.

MAR-6LT ..... **6L Corona Mount Bag for BMW K1200LT** **$135.00**

Marsee 1.5 Liter Bullet Bag

The 1.5 Liter Bullet Bag from Marsee just may have the most versatile mounting systems in the world! The bag is available as a 4 point quick release bag, a magnetically mounted bag, a magnetically mounted bag to a plastic tank or a Ram mounted bag. It is the perfect size for a phone, wallet, toll-booth change and a small map!

Ram Mount with optional socket arm

Marsee features include:
- Inside organizer
- D-rings
- Shoulder Straps
- Inside I.D. card holder
- Storage pocket
- Removable base on magnetic and quick release bags

4 Point Quick Release

Overall Dimensions:
7” Long, 5” Wide, 3.5” High

(NOTE: MAR-1.5BRM comes with a Ram Mount 1” Ball. To complete this mount, please see pages 32-33 to purchase a Ram socket arm and Ram base. This allows full customization of mounting this bag.)

Marsee 4 Liter Stash Bag

The Marsee 4L Stash Bag was specifically designed with a tunnel on the underside of the base to fit Harley-Davidson® motorcycles with a console running the length of the tank. The bag literally straddles the console and is mounted magnetically for a very stable fit. Fits most Harleys, with the exception of the Ultra and some Road Kings.

Dimensions:
Overall: 11” Wide, 8” Deep, 5.5” High
Tunnel: 5-1/4” Wide, 3/4” High

Marsee features include:
- Removable map pocket
- Molded handle partially recessed
- Inside organizer
- D-rings
- Inside storm flap
- Seam sealed silver interior

Marsee 6L Ciao Borsa & 20L Mr. Pockets

Marsee 6 Liter Ciao Borsa

6L Ciao Borsa with Magnetic Mount

Corona Mount

"Ciao" in Latin based languages means "hello and goodbye". The ideal name for this 6 liter bag (Borsa= Bag, in Latin). The Ciao Borsa will hold pretty much everything you need for a day trip or work commute. The octagon shape with chamfered corners is ideal for rider comfort and handlebar clearance. Adjustable shoulder strap comes standard. The physical size of the Ciao Borsa makes for friendly mounting to almost any motorcycle! Available with a Corona Mount or Magnetic Mount.

Overall Dimensions:
10.5" Long, 8.5" Wide, 5.25" High

Marsee features include:
- Removable map pocket
- Molded handle partially recessed
- Inside organizer
- D-rings
- Inside storm flap
- Seam sealed silver interior

MAR-6ZM ..... **6L Ciao Borsa with Magnetic Mount** **$115.00**

MAR-6ZCH ..... **6L Ciao Borsa with Honda Corona Mount** **$195.00**
MAR-6ZCT ..... **6L Ciao Borsa with Triumph Corona Mount** **$195.00**

Electrify this bag! Add an electrical Kit A or B to any of the 6L Ciao Borsa Bags for $80.00, which includes installation. See page 9 for electrical kit descriptions.

20L Corona Mr. Pockets

The Corona Mr. Pockets has all the great features of Marsee tank bags, mounted with the innovative Corona Mount. Simplistic in execution, the bottom Corona is bolted to the outer ring of the motorcycle fuel cap. The upper Corona is bolted to the bottom of the tank bag. To operate, simply place the upper Corona on the bottom Corona at about 8:00, push down then twist the bag to 12:00 and the 4 top magnets engage with the bottom 4 magnets and the bag is secure! This bag is also expandable to add an additional 4 inches in height to the bag.

Marsee features include:
- Inside organizer
- D-rings
- Shoulder straps
- Inside I.D. card holder
- Storage pockets

Overall Dimensions:
14" long x 12" wide x 6" high

20L Corona Mr. Pockets with Ducati Mount

20L Rear Corona Mount for BMW 1200GS

The Marsee 20 liter Mr. Pockets Corona Tank Bag can now serve as a Corona Rack Bag on BMW 1200GS's. We have CNC machined a beautiful black anodized aluminum mounting bracket that accepts a universal bottom Corona mount that bolts directly to the GS rack. The bracket has four rubber bushings on the bottom to prevent metal to metal contact between the rack and the bracket. A security strap to connect the bag and the bracket to the rack comes standard.

MAR-20RCGS ..... **20L Rear Corona Mount Bag for GS** **$195.00**

10L and 15L Only Tank Bag Options

Rain Cover (pictured)

Clear top allows map visibility even in the rain.

MAR-15RAIN ..... **15L Tank Bag Rain Cover** **$15.00**

Lid Protector

Add this 3M coating to your hard lid to protect it from scratches.

MAR-10LID ..... **10L Lid Protector** **$15.00**
MAR-15LID ..... **15L Lid Protector** **$15.00**

Techmount T-Bar Mounting System

Marsee Products and Techmount Systems have collaborated on building a better way to mount vital equipment onto a tank bag for easier access and better visability. The key piece in the system is the T-bar which bolts to the back of the hinges of the Marsee 10L and 15L tank bags. The T-bar has 3 mounting locations and can accept up to three Techmount shafts and mounting plates. The kit is supplied with one t-bar, shaft and plate. Add on additional mounts as required (**see pages 30- 31 for additional Techmount products**). If you select to add the Techmount system to your Marsee tankbag when ordering, we will install it for you.

MAR-TBMSYS ..... **10L Tank Bag T-Bar Mounting System** **$59.95**
MAR-TBMSYS-15 ..... **15L Tank Bag T-Bar Mounting System** **$59.95**

MAR-TBPLATE ..... **1 Plate and 1.5" Shaft only** **$49.95**

Pictured with one extra optional plate and shaft.

Electrical Kits (available installed on all Marsee Tank Bags)

Our Powerlet kits include what you need for a total solution! You may however need additional adapters or internal modules to suit the electronics you may run. We recommend buying our kits, but all Powerlet items are available separately at your own risk of installation. Order one of these kits with your Marsee tank bag and we'll install it! **Pictured installed in Marsee Tank Bag with optional cell phone cord.**

Powerlet Kit A- for BMW's, Triumphs and Ducatis

This kit is your solution to powering items in your bag! Kit A is for BMW's, Triumph Sprint ST and Ducati ST2, ST3, ST4, ST4S with factory installed outlets.

Includes:

- Powerlet plug, right angle, 30" long. This plugs into your factory plug socket already in your bike and runs up to the Powermate outlet on the tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables **(see pages 24-26)**.

To order this with your tank bag, add "-A" to the tank bag part number. We'll install it on your bag for you! **$80.00**

Powerlet Kit B- Installs Directly on Battery

This kit is your solution to powering items in your bag! Kit B is for most bikes. Installs directly on battery.

Includes:

- 38" long fused battery lead. This easily installs onto battery and cable runs up to the Powermate outlet on the tank bag. Includes fuse. This cable should reach from battery to front of tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables **(see pages 24-26)**.

To order this with your tank bag, add "-B" to the tank bag part number. We'll install it on your bag for you! **$80.00**

Marsee Accessories

Marsee Dry Bags

These durable, waterproof Dry Bags keep elements out of your gear. A great way to organize, whether you are packing for hard or soft luggage. Available in three sizes.

MAR-DB15 .....**15 Liter Dry Bag** **$14.00**
MAR-DB20 .....**20 Liter Dry Bag** **$16.00**
MAR-DB30 .....**30 Liter Dry Bag** **$18.00**

Marsee Compression Bag

This bag is simply amazing and will reduce the contents to about 40% of its uncompressed size. The bag will compress from 16 inches tall to a very compact 6 inches.

MAR-CB **$18.00**

Marsee Quick Clip

Forget dangerous hooks when strapping down your luggage. The patented Quick Clip has no hooks to scratch, cut or otherwise cause damage to your valuables. Maximum weight load is 7 pounds.

Dimensions: Expands from 36" to 58" including hook device.

MAR-QC **$9.00**

Marsee Carabiner

Convenient way to attach light weight accessories. Use a Carabiner to attached gloves etc. to your Marsee Tank Bag's D-rings. Not to exceed 2 pounds. Package of 3.
MAR-CARABINER **$5.00**

Marsee Handle Pocket

This handle pocket attaches to the front of all tank bags. Gives easy access to small items, change for toll fees or credit cards.
Dimensions: 6" x 1" x 2-1'2"
MAR-HANDPKT **$5.00**

Marsee Ballistic Accessories

Made from 1050 denier Ballistics fabric with reflective Marsee logo. Closures on Sunglasses Case and I-Pod Case are zippers. Closures on Cell Phone Case and Wallet are hook and loop. All are lightweight. Black exteriors.
MAR-CELL.....**Cell Phone Case- for flip phones**.....**$5.00**
MAR-IPOD .....**I-Pod Case- for large I-Pods or I-Phones** ..**$5.00**
MAR-SUN.....**Sunglasses case**.....**$5.00**
MAR-WALLET..**Wallet with silver interior** **$5.00**

Cell Phone Case

Sunglasses Case

Wallet

I-Pod Case

Marsee Hydration Systems

Hydration Systems are great add-on options to any tank bag. These hydration systems are available in 1.5 or 3 liters. Large opening mouth allows for an easier refill, plus the ability to use ice. It is also easier to clean. 90 degree bite valve is helpful to use with helmet on. The included retractable lanyard attaches to luggage to keep hydration tube in place and retracts after use.
Available in two sizes:

1.5 Liter Hydration System
Dimensions: 6" wide x 13" long
MAR-HYD1.5 .....**$15.00**

3 Liter Hydration System
Dimensions: 7.5" wide x 17" long
MAR-HYD3.....**$18.00**

Hydration System pictured in Marsee Tank Bag

Marsee Retractable Lanyard

Included with Marsee Hydration Systems, this lanyard attaches to bag to keep hydration tube in place. Extends out when you need it.
MAR-LANYARD **$2.00**

Marsee 20 Liter Rear Bag

NEW FOR 2009

The new Marsee 20 Liter Rear Bag has a three way universal mounting system that will fit almost any two-wheel transportation, from scooters to cruisers.

Internal Features: The main compartment has external pockets on all four sides and is closed via a 270-degree waterproof zipper with an internal storm flap to repel the elements. The interior has silver waterproof fabric that is seam sealed to prevent water entry. The main compartment can even be used for a short term cooler with ice in it. The silver fabric eliminates the "dark hole" effect found in many competitive bags. Internally on the lid is an I.D. cardholder with card.

External Features: The four external pockets all have reflective fabric and reflective piping for low light conspicuity. The zippers extend over the sides of the pocket for a large, easy to enter opening. The molded handle with adjustable straps is removable and can be stowed in a side pocket. There are four D rings on top of the lid that, in conjunction with the enclosed cord and cord lock (comes standard), allows for additional items to be lashed to the top of the lid (after the handle has been removed).

Silver lined interior makes objects easier to find.

Mounting: Underneath the two side pockets are hidden straps with quick release buckles and J hooks to permit several ways of mounting. One is by attaching the J hooks to a substantial part of the bike or, secondly by wrapping the straps around a frame/bar member and securing to the bike. Thirdly, the bag has a very unique way of attaching to motorcycle rear racks. On all four sides of the bag are three layered straps of "hook and loop". The center layer loops through a rack bar and returns to its original position, then the top layer of "hook and loop" rests over the middle layer to create a very strong form of attachment.

Large Marsee zipper pulls are on all zippers, super strong 1680 denier fabric is used externally and all hardware is top quality. A rain cover with cord and cord lock adjustment is standard as well as an adjustable, dual pivoting shoulder strap.

Dimensions:
Main Compartment: 10-1/2” Wide, 9-1/2” Tall, 9-1/2” Deep
External Pockets: 7” Wide, 6-1/2” Tall, 1-1/2” Deep

MAR-20RB **$135.00**

Pockets feature reflective piping and fabric for low light conspicuity.

D-rings and Cord allows extra items to be lashed to the top of the lid.

Marsee 45 Liter Cruiser Bar Bag

NEW DESIGN FOR 2009

Mounting system: The unique Marsee expandable sissy bar (backrest) system allows the bag to fit a range of sissy bars from about 7 inches to 16 inches in width. A padded sissy bar pad rests over the mounting system to offer comfort to rider and/or passenger. Hidden under the side pockets of the main compartment are “drop down” adjustable quick release buckle straps with J hooks so the bag can be securely mounted by using the J hooks or by wrapping the straps around a frame member or mounting bar. The top roll also has mounting straps attached under the side pockets to allow it to be mounted solo if desired. Molded handles on both the top roll and main compartment are sewn and riveted, then reinforced on the under side for good strength.

Top Roll Features: The top roll end pockets have zippers extending over the sides for easy access to contents inside. Entry to the top roll bar is by way of waterproof zippers with the bottom sealed with ‘hook and loop’. The interior is silver waterproof fabric to add to the waterproofness of the bag and to make dark objects in the bag more visible. A non-slip, non-abrasive material is sewn onto the bottom of the bag. D-rings are located at the top ends to connect the enclosed standard adjustable shoulder strap with dual pivot snap hooks.

Main Compartment Features: The entry has a drop down lid with side gussets that open to a 45-degree angle, but side zippers on the gussets permit the lid to open completely for maximum access to inside contents. The side gussets prevent contents from falling out when the lid is opened at 45 degrees. Above the entry lid is a storm flap sealed by ‘hook and loop’ to help repel water entry from the top of the bag. On the inside of the lid is a large zippered mesh pocket for storing otherwise loose contents. The interior fabric is waterproof silver fabric, which makes dark objects stored in the bag easier to see. As with the top roll, the bottom is a non-slip, non-abrasive material and D-rings on the sides allow the connection of the enclosed standard shoulder strap.

External Features: The main compartment bag has three pockets with reflective fabric and reflective piping to aid visibility in low light conditions. The zippers extend considerably over the edges of the pockets for easy entry and exit of stowed items. Four adjustable quick release buckles connect the two bags firmly together. A total of six D-rings are located on the sides of the bags to allow other items to be attached to the bags if desired. Both bags are made with 1680 denier waterproof fabric. A rain cover comes standard with the Cruiser Bar Bag.

Backpack Function: Shoulder straps are secured on the backside of the main compartment bag by way of elastic sleeves. The shoulder straps are placed into service by pulling them from the elastic sleeves and snapping the bottoms of the straps to the D-rings on the side of the bag. The attached adjustable compression straps connect to the quick release buckles on the backside of the top bag.

MAR-45CBB **$235.00**

Silver Interior allows easy view of darker objects. Drop down lid on main compartment allows quick access to contents.

Visit us online at www.racerpartswholesale.com to view a video of this product’s features!

Expandable sissy bar mounting system fits bars from 7” to 16” wide. Padded sissy bar pad gives comfort to passenger.

Marsee 50 Liter Zipp Motorcycle Duffel

This motorcycle duffel bag is no ordinary bag. There are a total of nine storage pockets, four out and five inside. Three of the four external pockets zip off so you can carry them separately. One zip off bag has brief case capabilities, another bag has tool box capabilities and the third is designed to be a toiletry bag. The bag has six mounting straps for a good, solid mounting and stable ride. The straps hide away into little storage pockets when not in use. The bag can be completely un-zipped for easy packing. Three hooks allow for easy hanging of the bag.

The bag has a heavy duty carry handle and shoulder strap that comes standard. Externally the bag is made of 1050 denier ballistics fabric and has reflective fabric and piping for night time and low level conspicuity. Inside the bag is finished in silver fabric and "see through" mesh fabric. External zippers are tough number 10 coil zippers. Rain cover is included.

Attaches to bike with six mounting straps.

Dimensions:
Overall: 18" Long, 11" Wide, 12" Deep
End Pockets: 10" Wide, 8.5" High, 3" Deep
Side Pockets: 14" Wide, 8.5" High, 3" Deep

MAR-50ZIPP **$225.00**

Lid opens normally for quick access to contents.

Continue to zip down both sides and the bag folds open for easy access for packing and unpacking. 3 hooks allow for easy hanging in hotel rooms, etc.

3 of the 4 external pockets zip off and can be carried separately.

Helen Twowheels Clothes & Roll Top Sacks

The **Helen Twowheels Super Packing System** helps you pack everything you need for a weekend trip or cross-country adventure onto your bike.

With three main types of bags- the **Roll Top Sack**, **Cord Close Sack** and **Clothes Sack**- plus packing straps & a few accessories, you will have everything you need for your trip!

All of the bags are made of black, high-quality, rugged, waterproof material that is laminated on the inside with a layer of polyvinyl. On the **Clothes Sacks** and **Roll Top Sacks**, all seams are sealed and, once rolled, **both styles of bag are waterproof.** All have the unique reflective, slotted strap the entire length for attachment versatility and only the finest quality nylon hardware.

Visit us online at www.racerpartswholesale.com for complete instructions on how to use this system!

Clothes Sacks

These bags were developed for those people who want the convenience of easy access. They are built to seal like the Roll Top Sack but open the length of the long side so you can get to all those little things in there. They are also waterproof and have double handles. These are compression bags and, although you can fit a lot of stuff in them, they will never pack as tight as the regular Roll Top Sacks. To pack, stuff items into the two ends first (better yet, stuff some mesh insert bags into the ends for easy packing!). Then load the middle. Once packed, close the lips of the bag and roll down three times. Clip the ends and your bag is ready to go!

HTW-410 ..... **Extra Large- 14” x 32”** **$115.00**
HTW-420 ..... **Large- 12” x 26”** **$95.00**
HTW-430 ..... **Medium- 10” x 20”** **$78.00**

Roll Top Sacks

These are the perfect waterproof bags to compress that soft squishy stuff you want to keep dry. If you have sleeping gear, this is the bag for you! To pack, roll up your Thermarest and put it in, then unwind it to the perimeter of the bag so you have a hole in the center. Stuff your loose sleeping bag and other soft items into the center. Then hold the lips of the bag, punch out the air (pictured to the left), roll down at least three times, then clip. This bag also works for clothing and other soft items. Note: dimensions listed are before rolling the bag- you will use at least 6” in height (depending on how many times you roll it) to close the bag.

HTW-210 ..... **Extra Large- 14” x 36”** **$60.00**
HTW-220 ..... **Large- 12” x 32”** **$50.00**
HTW-230 ..... **Medium- 10” x 28”** **$40.00**
HTW-240 ..... **Small- 10” x 24”** **$35.00**

Cord Close Sacks

These bags come in 4 sizes and are the perfect bag for those long hard, potentially wet things like tents and camping chairs. While the fabric of the Cord Close Sacks is waterproof, the end closure is a drawstring with rainfly closure. This allows your potentially damp items, like tent or chair, a little air to breathe. The drawstring and rainfly closure won't put any pressure on the ends of the poles. Extra Large is for that huge tent that people shouldn't be carrying on their motorcycle! Large is perfect for a 4-man Eureka size. Medium is right for most 2-man tents. Small is the bag you want for that folding chair or loose tent poles. To pack a tent, slide your poles in first. Then put your rain fly all the way in the bottom, then follow it with the tent body itself. Finish with the ground cloth. This will allow you to take the items back out of the bag in the order you need them in. For a chair, simply slide it in, pull the cord and slide the cord lock to close the end of the bag (pictured).

HTW-310 ..... **Extra Large- 10” x 35”** **$40.00**
HTW-320 ..... **Large- 9” x 30”** **$35.00**
HTW-330 ..... **Medium- 7” x 26”** **$30.00**
HTW-340 ..... **Small- 5” x 32”** **$25.00**

Mesh Insert Bags

These handy bags are made of sturdy mesh fabric and have a zipper through the center of the bag. The bag diameters are sized to fit in the **Roll Top Bags** (pictured) and the **Clothes Sacks**. They were designed to help you organize your stuff with these “removeable pockets” inside your bags for ease of use.

HTW-610 ..... **Extra Large- 14" x 8"** **$20.00**
HTW-620 ..... **Large- 12" x 8"** **$15.00**
HTW-630 ..... **Medium- 10" x 8"** **$10.00**

Wet Bag

This sturdy mesh bag with top zipper is perfect for drying out wet clothing and is a great place to put the smelly stuff. Put it right on top of the rest of the bags by threading the strap through the bottom side of the bag (right picture). Allow it to flap in the breeze, where it does its job best. Don’t have any wet stuff? Strap on the bag anyway and you’ll always have a place to put newspapers etc. Left picture is of the wet bag on Helen Twowheels Clothes Sack and Roll Top Sack.

HTW-600 ..... **Wet Bag- 21.5” x 14”** **$30.00**

Tool Roll

An improvement on the standard tool roll. These have a longer flap, a better strap and a special large velcro pocket the entire length for loose bolts, wiring diagram, or cleaning rag! Yet they still fit in the space under your seat… (tools not included.)

HTW-700 ..... **Tool Roll** **$20.00**

Handy Pouch with Safety Orange Flag

There's nothing worse than being stranded on the highway with cars roaring past! Make yourself more visible with the Handy Pouch with Safety Orange Flag! The flag measures 18” x 5.5” and has Velcro on the end for easy attachment to your handgrip, antenna, luggage rack or almost anywhere. The pouch can also be used to store loose change, spare keys or even your bike's registration.

HTW-701 ..... **Handy Pouch w/flag** **$5.00**

Super Pack Straps

The Super Pack Straps come in a four piece set. These can attach to many points on your bike- the luggage rack, hand rails, subframe or under the passenger seat or top box. They will hold bags on the rear seat OR above the saddle bags for 2-up touring.

Super Pack Straps

HTW-101	**Red Pack Straps**	**$22.00**
HTW-102	**Yellow Pack Straps**	**$22.00**
HTW-103	**Blue Pack Straps**	**$22.00**
HTW-104	**Black Pack Straps**	**$22.00**
HTW-105	**Orange Pack Straps**	**$22.00**

D-Ring Extenders- Extend your packing straps by 12"

HTW-9101	**Red D-Ring Extenders**	**$5.00**
HTW-9102	**Yellow D-Ring Extenders**	**$5.00**
HTW-9103	**Blue D-Ring Extenders**	**$5.00**
HTW-9104	**Black D-Ring Extenders**	**$5.00**

How to use the Helen Twowheels Super Pack Straps: Once your bags are all packed, it is time to put it all on your bike! The pack straps come in a four piece set- two short, two long. There is a velcro piece on one of the short straps that holds the set together when not in use- when you are ready to use the straps, simply wrap the velcro around itself.

To begin, put each short strap on opposite sides any where around the frame of the bike (put the d-ring end through the built-in loop at the opposite end of the strap). You can use grab rails, luggage rack, seat pan frame or any other place that is easy to reach and is attached firmly to the frame of your bike.

Attach the long straps the same way. Keep the attachments close together, rather than far apart, as this will form a closed circle around your load and hold it more tightly.

Stack your bags and feed the long straps though the webbing slots on each bag as you come to them. Thread the end of the straps through both d-rings on the short straps, then go back over one and under the other (top picture). Then cinch down the straps by pulling down on the strap and up on the tail (bottom picture). Work first one strap, then the other and go back and forth until sung. Don't forget to tuck the loose end under the tight strap so that it doesn't flop around as you drive.

BMW K1200LT Strap

This special version of the Super Pack Straps is designed for the BMW K1200LT, but also will allow many sportbikes without handrails to carry bags on the back seat. It is meant as a long-term mounting option that fits under the passenger seat and is used to attach bags on top of the side cases. **Visit www.racerpartswholesale.com for installation instructions.**

HTW-1002	**BMW K1200LT Strap**	**$22.00**

Saddle Bag Liners

Designed for the standard BMW saddle bags, but works well with many other saddle bags, these liners make your packing easier: pack them in the house and stick them in the saddle bags... when you get where you are going, grab and go… couldn't be easier! The high-pipe saddle bags fit bikes with a left-hand high exhaust pipe. The City cases are for the skinny saddle bags. **Visit us online at www.racerpartswholesale.com for bag dimensions.**

HTW-500	**Standard Saddle Bags- Pair**	**$120.00**
HTW-501	**High-Pipe Saddle Bags- Pair**	**$120.00**
HTW-502	**City-cases Saddle Bags- Pair**	**$120.00**

Box Bags

Use these box bags to help organize your expedition cases. They are zippered bags with color-coded handles for easy organizing. The bags were designed for the Jesse cases, but will fit other adventure touring cases.

We recommend measuring your specific case to make sure the combination of bags will fit, however if you have a Jesse case for a BMW, here are the suggested bags for your case:
Safari Jesse Bags- For a set of bags for one case (three for the case, one for the lid), we suggest 4 Large Box Bags.
8" Odyssey Jesse Bags- for a set of bags for one case, we recommend 2 Large Box Bags, 1 Small Box Bag & 1 Small Lid Bag.
10" Odyssey Jesse Bags- for a set of bags for one case, we recommend 3 Large Box Bags & 1 Large Lid Bag.

With all cases, we recommend ordering a combination of box bags and lid bags to fit your specific application and packing needs.

Large Box Bags: 5-1/2" x 9" x 16"
Small Box Bag: 1" x 4" x 15-1/2"

HTW-510 ..... **Large Box Bag- Red Straps** **$22.00**
HTW-511 ..... **Large Box Bag- Yellow Straps** **$22.00**
HTW-512 ..... **Large Box Bag- Blue Straps** **$22.00**
HTW-513 ..... **Large Box Bag- Burgundy Straps** **$22.00**
HTW-520 ..... **Small Box Bag- Green Straps** **$22.00**

Lid Bags

Similar to the box bags, these bags are sized to fit behind the retaining clip on the Jesse Bags, however they are also great for small areas inside other cases and bags. Perfect to help organize your smaller items.
HTW-530 ..... **Large Lid Bag- Black Straps- 2-1/2" x 7" x15-1/2"** **$22.00**
HTW-531 ..... **Small Lid Bag- Brown Staps- 2" x 5-1/2" x 15-1/2"** **$22.00**

Seat Panniers

These Seat Panniers use that empty space behind the rider's leg by mounting under the seat and strapping to the passenger foot peg. They will fit nearly every model and brand of motorcycle. They are a great place to stow "need-to-get-to-quickly" items, or heavy things that you want to keep low and forward. Don't worry about marring your painted surfaces, as all the parts that would rub are covered with soft neoprene. 9"h x 7"w x 7"d.

HTW-800 ..... **Seat Panniers- Pair** **$165.00**

Tank Panniers

These Tank Panniers are designed to be used on most naked bikes, especially the BMW GS. They have wide adjustable straps to hang off your gas tank, and can be used alone or with your favorite tank bag **(see pages 3- 9 for Marsee Tank Bags)**. As with the Seat Panniers, the parts that come in contact with your paint are shielded with neoprene. 9"h x 9"w x 6"d

HTW-900 ..... **Tank Panniers- Pair** **$175.00**

ROK Adjustable Motorcycle Stretch Straps

Designed to fit bike lugs, frames and carry racks, allowing immediate access to your luggage. Adjustable lengths of 18- 54" caters for the largest range of luggage shapes and sizes. Confidently secure 90 lbs in all weather conditions. Unique closed-end fastening system ensures there are no dangerous steel hooks. Motorcycle strap shown (with some color on strap). Cruiser strap is all-black.

ROK-00001 ..... **Motorcycle 54" x 1" adjustable strap, with some color** **$18.95**
ROK-00025 ..... **Cruiser 54" X 1" adjustable strap, all black** **$18.95**

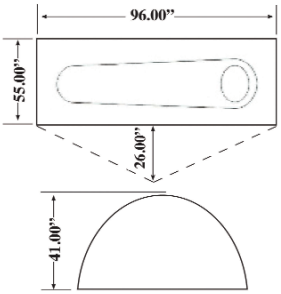
Lone Rider Tent

The Lone Rider sets up in 30 seconds using Catoma's patended Speedome system and immediately provides weather protection. With the poles on the outside of the fly and the tent body suspended from it, the inner tent remains dry in inclement weather. The all screen tent body also provides great ventilation. The Lone Rider breaks down as quickly as it sets up and provides a durable and easy to use shelter for any soloist. This tent is truly everything you need in one package.

Features:

- Patented Speedome integrated pole system
- Sleeps 1 person comfortably with additional room for gear
- Special 2 wall design that allows for easy, weatherproof setup
- Bathtub floor & taped seams for added waterproofing
- Ground Cloth available for purchase
- Carry bag features roll down closer on large side of the bag for easy packing
- 2000mm Polyurethane waterproofing
- 2 doors for easy access
- Gear Loft included

Sleeps: 1
Weight: 7 lbs. 4 oz.
Packed Dimensions: 26.5" x 6"
Center Height: 41"



CAT-64596F .....Lone Rider Tent **$160.00**
CAT-64596F-GS ....Lone Rider Ground Sheet **$13.00**

See Page 16 for the Helen Twowheels Super Packing Straps to secure your tent to your bike!

2-UP Tent

Based on a well-tested Catoma design used by wilderness firefighters, the 2-Up's patented Speedome integrated frame system makes camping a breeze with easy set up. Catoma increased the ventilation and usable space by adding a full screen back door with an additional vestibule. The fly features an improved design to provide better weather protection for the roof vents. Enjoy Catoma's new organizer pockets that give you sections to store your gear along each sidewall of the tent. The 2-Up also includes a gear loft. This tent provides the easiest setup and take-down with no lost parts! Now you can focus on enjoying other things instead of spending time setting up your tent.

Features:

- Patented Speedome integrated pole system
- Single wall tent with pull out vents for air movement
- 2 doors and 2 vestibules for easy access and lots of storage space
- Bathtub floor and taped seams for added waterproofing
- Special accessory pockets organize all gear inside the tent
- Carry bag features roll down closer on large side of the bag for easy packing
- 2000mm Polyurethane waterproofing
- Gear Loft included

Sleeps: 2

Swedish FireSteel- Scout

Originally developed for the Swedish Department of Defense, Swedish FireSteel is a flash of genius. Its 3,000°C spark makes fire building easy in any weather, at any altitude. Used by a number of armies around the world, Swedish FireSteel's dependability has already made it a favorite of survival experts, hunters, fishermen and campers. It has also found its way into cabins and backyards as a fool-proof way to light stoves and gas-barbecues. It lasts for 3,000 strikes. Weight: 1.1 oz. Color: red.

RPW-700.....**FireSteel-Scout** **$12.99**

Survival/Rescue Knife

Developed by Tool Logic, the SL3 is a complete survival kit weighing only 2.7 oz. A razor sharp blade with a spear point shape, an all-weather FireSteel fire starter and a loud emergency whistle makes the SL3 the natural choice for all outdoor activities. The locking blade has sufficient curve for most field chores and can be opened and closed with one hand. The 50/50 serrations add utility in both cutting and sawing. The SL3 is not only well thought out, it is rugged enough to live up to its slogan: Built for Life™.

Features:
- Built-in FireSteel fire starter
- 3.1 inch blade, 50/50 serrated
- Spear-tip point
- Emergency whistle
- Lanyard with flourescent clip
- Belt clip

RPW-701.....**Survival/Rescue Knife**.....**$38.99**

UCO MightLite Compact Lantern and Torch

Our new MightyLites offer a lot of light in a small package. With a 0.5 watt Nichia LED, they provide 26 lumens of light with a long-lasting LED bulb. This one-piece flashlight with an aluminum housing, converts into a lantern with a simple pull. The torch position focuses the beam of light, while the lantern position allows the light to spread for enclosed situations. The Mini version, perfect for travel and emergencies, is 2.5 oz. (with battery). The XL version burns for 22+ hours, and is perfect for outdoors and camping. Use it as your primary source of light or to keep packed in case of emergencies.

MightyLite Mini Features:
- Weighs 2.5 oz with batteries
- Uses 1 AA battery (Duracell included)
- 3.75" x 1" (4.75" long when opened)
- Carabiner and Carrying Strap included
- Burns 5-12 Hours
- Water Resistant
- Color: Red

RPW-500 .....**MightyLite Mini**.....**$23.95**

MightyLite XL Features:
- Weighs 3.8 oz with batteries
- Uses 3 AAA batteries (Duracells included)
- 4" x 1.25" (5" long when opened)
- Carabiner and Carrying Strap included
- Burns 22+ Hours
- Water Resistant
- Color: Blue

RPW-501 .....**MightyLite XL** **$23.95**

Spork

Our spoon-fork-knife combo brings a bit of civilization to the wild and a bit of the wild to civilization. The Spork is perfect for your backpack, boat, picnic basket, lunchbox, purse or briefcase.

Features:
- Heat resistant Polycarbonate material - doesn't melt in hot/boiling water
- Won't scratch non-stick cookware, Teflon-friendly
- Machine washable
- Extremly durable
- Weight: 7 grams

RPW-710 .....**4-pack, Multi-color** **$8.99**

Outdoor MealKit

This kit is perfect for your backpack, boat, picnic basket, even your lunch box. The MealKit contains everything you need to prepare and eat a meal anywhere: two plates, a spill-free cup with lid (300ml), a combined colander and cutting board, a "Spork" (combined spoon and serrated fork) and a small waterproof box for all those things that just have to stay dry. Dishwasher and Microwave safe. Weight: 11 oz. Optional Harness has plastic buckle for easy hanging.

RPW-734.....**Outdoor MealKit**.....**$18.99**
RPW-735.....**Meal Kit Harness** **$5.99**

Outdoor MealKit

MealKit with Harness

The Original Candle Lantern

This is the classic, long-burning collapsible Candle Lantern that has provided warm natural light to thousands of outdoor enthusiasts for decades. It is perfectly suited to backpacking, mountaineering, snow camping and similar outdoor pursuits. The Original Candle Lantern utilizes one UCO 9-hour candle, surrounding it in the safest, most efficient lantern housing available anywhere. The lightweight aluminum frame holds the glass chimney securely in place, creating a windproof environment for the flame. And the unique Easy-Slide chimney allows the glass to slide down into the lantern, making the candle easier than ever to light. The spring powered candle tube pushes the candle up as it burns, keeping the flame burning at a constant height. A viewing slot on the side of the lantern allows the user to monitor the slow burning candle for remaining burn time.

Dimensions: 6.5" High (closes to 4.25")
Weight: 6.4 oz., Candle: UCO 9-hour or Citronella
Polished Aluminum Finish

Features:
- Carrying Handle/Hanging Bail
- Easy-Slide Glass Chimney
- 9-Hour Candle
- Spring Loaded Candle Tube
- Aluminum Construction
- Twist Lock Base
- Candle Viewing Slot

RPW-200.....**Original Candle Lantern** **$18.95**
RPW-2001.....**3-Pack of 9-Hour Candles**.....**$4.99**
RPW-2002.....**3-Pack of Citronella Candles** **$5.49**

Using Candle Lanterns in Tents

The image of a glowing tent in the wilderness night is an appealing one. With a little common sense a UCO Candle Lantern is as safe in a tent as other light sources, and much more appealing and economical. A Candle Lantern produces warmth in a tent while reducing condensation- try that with a headlamp! Always ventilate the tent adequately, keep the heat shield away from tent walls, and keep burning candle within sight. The result is a warm tent, plenty of light to read by, and your headlamp's batteries are preserved for those times when you really need them.

The Mini Lantern

The design of the Mini Lantern does a superb job of utilizing readily available "tealight" tub candles and expanding its capabilities to include outdoor recreation and wider use around the home. Made to the same high standards as the Original Candle Lantern, the patented Mini Lantern features aluminum construction, a glass chimney and a unique candle holder that keeps the tealight candle stable. A specially designed vent in the base of the lantern provides cool air to supply the flame with needed oxygen.

Dimensions: 4" High x 2.5" Diameter.
Weight: 3.5 oz
Candle: Tealight Tub Candle (4-5 hour burn)
Polished Aluminum Finish

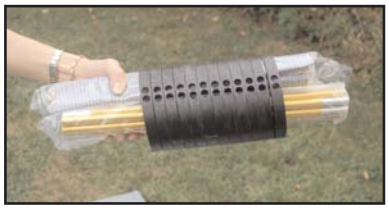
Features:
- Carrying Handle and Hanging Bail
- Aluminum Construction
- Wind Resistant Glass Chimney
- Tealight Candle Holder
- Twist Lock Base
- Made in the USA

RPW-100 .....**Mini Lantern**.....**$9.95**
RPW-1001 .....**6 Pack Tealights**.....**$2.99**

Guaranteed Lowest Prices!

UltraLite Cot

The UltraLite Cot packs down to 16" long by 5" diameter and weighs less than 3 pounds for big-man 325lb weight rating. Or, if you weigh under 200 lbs, leave two bows at home for a 2 pound cot. No end bars, so tall guys sleep great too. Takes 3 minutes to assemble when totally disassembled for the minimum packed size. Or use the new Fast-Pack method and it goes together in less than a minute. No big muscles needed, kids are strong enough to do it. Quiet sleeping, with no pins, bolts, or rivets to squeek. The UltraLite Cot won't break if overloaded; the fabric top just bottoms out on the ground. You sleep floating above rocks, sticks, roots, water and snow. All materials are impervious to saltwater and sunlight. The 3-layer laminated ripstop fabric won't sag or rot. Sleep cool like a hammock in hot weather or use the Cool Mat or any foam pad on top for winter insulation. The UL Cot can't leak and go flat in the night and it's thicker than any foam pad at 4.5" [12cm]. Set the UL Cot across a slope and sleep great on camp sites that would make you slide off a foam pad. 24" wide by 74" long. Includes a ripstop nylon carry bag. Made in the USA!



RPW-ULC **$199.00**

Hi-Rise Tube Kit

Great for rocky, lumpy, or soft dirt campsites to give you more ground clearance, or for spare parts. Does not raise the cot itself higher; this kit makes you float higher because each Bow on the UltraLite Cot can support two tubes. When you use two tubes, the fabric tension is doubled and you float higher. The Hi-Rise Kit consists of 4 two-piece high strength aluminum tubes identical to the 8 included with the UltraLite Cot. With this Kit, your UltraLite Cot can have a double-tube Bow at all 6 locations. Stores easily with all other components in the UltraLite Cot carry bag. Weight is 6 ounces.

RPW-HRK .....**Hi-Rise Tube Kit** **$35.00**

Cool Mat

The Cool Mat fits all UltraLite Cots. This full-length, no-inflation mat weighs only 22 oz. but delivers dreamy comfort when used on top of any UltraLite Cot. The open-cell foam and breathable ripstop nylon cover deliver no-sweat sleeping due to the great air circulation. On cold nights you can add a reflective space blanket inside on the bottom to sleep warm. The Cool Mat is a full 76" long and the 25" width means your arms are cushioned too. Twelve elastic loops keep the Cool Mat in place. The foam is not like the spongy foam found in most cushions. This 'swiss-cheese' type foam stays firm, never rots, and does not hold water.

RPW-CM **$81.00**

UltraLite PillowPad

The 18x14" PillowPad is bigger than other camping pillows, but because of its air-foam architecture, it weighs about the same as a candy bar - 3 ounces (85 grams). And it can be easily compressed to the size of a drink can if you need to. The PillowPad is not a cramped little travel pillow, or a painfully thin foam sit pad. You can use it for all-night sleeping anywhere... on the plane, at home, in the SUV, or in camp. You can sit around a camp fire for hours with no sore butt. It is rugged... no need to baby it. You will not pop the air bag sitting on it, or stepping on it, even if you weigh 300 lbs. Puff it up thick and use it for a lumbar pad against a tree. The PillowPad feels very comfortable due to its unique three-layer construction. Inside the breathable ripstop nylon cover is a layer of open cell foam and under the foam is an air bag with a simple valve. You get soft conformance to your face and head, great air circulation, and no sweaty spot like other inflatable pillows.

RPW-PP **$39.00**

Ordering Heated Clothing

Three parts are required for heated clothing: the power outlet on the vehicle, the temperature controller & the heated garment. Simply put, the temperature controller & cables connect the garment to the power outlet.

Powerlet offers the widest selection of power outlets, many designed specifically for your vehicle. Our temperature controllers and cabling selection is also the best in the business. Combined, these offerings provide our customers with the ability to make either a quick, inexpensive, universal installation or a fully custom installation designed specifically for their vehicle. See pages 24- 26 for other Powerlet Products.

1. Select your garmet from page 23. Visit www.racerpartswholesale.com to see the size chart for a proper fitting garment.

2. Determine which type of switch or temperature controller you need. Please note, a 26" Coax Battery Lead (PKT-064) is included with the Temperature Controllers, but not the Coax Switch. If ordering the Coax Switch (when ordering gloves only), you will also need the Heated Glove Y-Cable (PAC-040) and either the Battery Harness Cable (PKT-064) or Powerlet Plug to Coax Female Cable (PPC-005).

FOR A JACKET OR VEST ONLY:

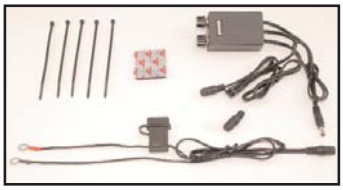
Powerlet Portable Temperature Controller
Weatherproof, reverse polarity & short circuit protected, with near-zero power loss. A temperature controller is required to be used with all Powerlet heated liners. Packaged with a PKT-064, 26" Coax Battery Lead. Our Performance line of temperature controllers are designed to be fault tolerant. These controllers will not fail in wet weather. Being fully protected against reverse polarity, overload and short circuits, Powerlet Performance™ Temperature Controllers are designed to perform under all conditions. We recommend using a temperature controller with all Powerlet ProForm heated jacket liners to achieve maximum comfort. Running the liner directly connected to the bike will be to warm in all but the most extreme cold conditions. Also this controller will limit the power drawn from the bike allowing the liner to be used on both large and small bikes.

PWR-PHG-300 .....**$64.95**

Powerlet Temperature Controller Belt Pouch
PVC shell with elastic sides and a convenient belt pouch formed into the back. Fits a controller like a glove.
PWR-PHG-310 .....**$9.95**

FOR A JACKET/VEST AND GLOVE COMBO:

Portable Dual Temperature Controller
We recommend using a temperature controller with all Powerlet ProForm heated jacket liners to achieve maximum comfort. Packaged with a PKT-064, 26" Coax Battery Lead. The Dual Controller is necessary when running two heated garments such as a jacket liner and heated gloves. Running the liner directly connected to the bike will be to warm in all but the most extreme cold conditions. Also this controller will limit the power drawn from the bike allowing the liner to be used on both large and small bikes.



PWR-PHG-306 .....**$92.95**

Powerlet Dual Temp Controller Belt Pouch
PVC shell with elastic sides and a convenient belt pouch formed into the back. Fits a controller like a glove.
PWR-PHG-311.....**$11.95**

FOR GLOVES ONLY:

Powerlet Coax Switch
Great for heated gloves. Works with all brands of heated clothing.
PWR-PPC-023 .....**$10.95**

and:

Powerlet Heated Glove Y-Cable
Connects a Powerlet heated gloves to a Powerlet Coax Switch when you do not have a heated jacket liner.
PWR-PAC-040 .....**$14.95**

plus one of the following:

Powerlet Plug to Coax Female
Connects coax heated clothing to a Powerlet (or Powerlet type) socket. Works with BMW, KTM, Triumph, Victory and Ducati motorcycles equipped with a factory socket. Works with Powerlet, Gerbing's, Warm & Safe and other brands of heated clothing with a standard coax connector.
PWR-PPC-005 .....**$16.95**

or:

Powerlet Coax Battery Lead 26" (Standard Duty 15 Amp)
This 15 amp fused battery harness has a standard coax connector and is compatible with all coax heated garments made by Gerbing's, Warm & Safe and Powerlet.
PWR-PKT-064 .....**$7.95**

ProForm Heated Jacket Liner

Powerlet's Premium Heated Liner is manufactured with ProForm panels, a premium collar, unique sleeves, full heat coverage, and zippered cable openings. ProForm panels stretch for maximum heat transfer, simple sizing and freedom of movement.

Powerlet's 100 watt ProForm™ heated jacket liners pack down to a very small size to fit on the bike when not in use. Not only the warmest heated clothing available, but our ProForm stretch panels also make them the most comfortable. We recommend using a temperature controller with the ProForm 100 watt jacket liners.

Men's Heated Jacket Liner

ProForm 100 Watt Jacket Liner Features:

- ProForm stretch panels provide comfort and simple standard sizing
- Ultra thin design provides comfort and small storage
- Comfortable heated Polartec fleece collar wicks moisture
- Glove connectors are located at the ends of the sleeves
- Unique sleeve finishing reduces bulk around wrists
- Zippered pockets manage power cables
- Handy stuff sack allows for storage on the vehicle
- Visit www.racerpartswholesale.com for sizing chart

Women's Heated Jacket Liner

PWR-PHG-100 .....**Men's Heated Jacket Liner (Sizes S- XXXL)**.....**$179.10**
PWR-PHG-200 .....**Women's Heated Jacket Liner (Sizes XS-XL)** **$179.10**

ProForm Heated Vest

Powerlet's Premium Heated Liner is manufactured with ProForm panels, a premium collar, unique sleeves, full heat coverage, and zippered cable openings. ProForm panels stretch for maximum heat transfer, simple sizing and freedom of movement. ProForm Heated Vest has the same great features as the Jacket Liners.
Visit www.racerpartswholesle.com for sizing chart.
PWR-PHG-150 .....**Heated Vest (Sizes S-XXXL)**.....**$125.10**

Powerlet Heated Gloves

Designed for commuting, touring & extending your riding season, Powerlet heated gloves will provide years of pleasure. All gloves contain double wiring in the thumbs, Porelle and Thinsulate liners. Style, comfort, protection & warmth.

Heated Glove Features:

- Simple standard sizing
- Box fingers for added comfort
- High gauntlet eliminates cold air leakage
- Engineered to match the ProForm liners and vests, single controller
- Porelle waterproof / breathable liner
- Thinsulate liner
- Premium tanned cowhide
- Works with other heated clothing manufacturers heated jacket liners
- 24 watts per pair
- Double heating elements in the thumbs
- Visit www.racerpartswholesle.com for sizing chart

Powerlet Heated CF -7 Sport Gloves

Carbon-fiber knuckles, premium leather, a curved form-fit, finger-top heat coverage, and Velcro straps for maximum heat transfer make these gloves the perfect choice for discriminating sport-touring riders. Simple true glove sizing. Specify size when ordering- Small to XXLarge.
PWR-PHG-400.....**$152.10**

Powerlet Heated RP-5 Rider Gloves

Manufactured with premium leather, a curved form-fit, finger-top heat coverage, and Velcro straps for all day comfort and immediate warmth. Simple true glove sizing. Specify size when ordering- Small to XXLarge.
PWR-PHG-401 .....**$134.10**

Powerlet Heated Rancher Gloves

Manufactured with premium leather, a curved form-fit, finger-top heat coverage, and Velcro straps for all day comfort and immediate warmth. Simple true glove sizing. Specify size when ordering- Small to XXLarge.
PWR-PHG-402 .....**$134.10**

Powerlet Electrical Kits

Guaranteed Lowest Prices!

Powerlet Tank Bag Electrical Kits

Our Powerlet kits include what you need for a total solution! You may however need additional adapters or internal modules to suit the electronic you may run. We recommend buying our kits, but all Powerlet items are available separately at your own risk of installation. **Pictured installed in Marsee Tank Bag with optional cell phone cord.**

Powerlet Kit A- for BMW's, Triumphs and Ducatis

This kit is your solution to powering items in your bag! Kit A is for BMW's, Triumph Sprint ST and Ducati ST2, ST3, ST4, ST4S with factory installed outlets.

Includes:

- Powerlet plug, right angle, 30" long. This plugs into your factory plug socket already in your bike and runs up to the Powermate outlet on the tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables (**see pages 25- 26**).

MAR-KIT-A **$70.00**

Powerlet Kit B- Installs Directly on Battery

This kit is your solution to powering items in your bag! Kit B is for most bikes. Installs directly on battery.

Includes:

- 38" long fused battery lead. This easily installs onto battery and cable runs up to the Powermate outlet on the tank bag. Includes fuse. This cable should reach from battery to front of tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables (**see pages 25- 26**).

MAR-KIT-B **$70.00**

Build Your Own Powerlet Kit!

To build your own kit, select an external power source. Then purchase the Powermat Kit (PWR-PTB-001) and add any internal connectors you need. Or make it simple and purchase Powerlet Kit A or Kit B from above.

External Power Sources

Powerlet to Powermate Cable- Straight

Power your tank bag from a BMW, Triumph, Ducati or Powerlet socket. Manufactured with a Powerlet Deluxe Cable and 16 AWG wire. Similar to PAC-011, but with a straight connector.

PWR-PAC-009-24 ..... **24" Long** **$22.95**
PWR-PAC-009-30 ..... **30" Long** **$23.95**

Powerlet to Powermate Cable- Right Angle

Power your tank bag from a BMW, Triumph, Ducati or Powerlet socket. Runs from bike outlet to Powermate. Manufactured with a Powerlet Deluxe Cable Plug and 16 AWG wire. Lower profile with right angle end.

PWR-PAC-011-06 ..... **6" Long** **$17.95**
PWR-PAC-011-12 ..... **12" Long** **$18.49**
PWR-PAC-011-18 ..... **18" Long** **$18.95**
PWR-PAC-011-24 ..... **24" Long** **$19.49**
PWR-PAC-011-30 ..... **30" Long** **$19.95**

Battery Lead

Power your tank bag directly from your battery. Runs from the battery to the Powermat Kit. Works on most bikes. This 15 amp fused battery lead is manufactured with 16 AWG wire. Includes 1 fuse.

PWR-PKT-001-24 ..... **24" Long** **$13.95**
PWR-PKT-001-48 ..... **48" Long** **$14.95**

SAE Extension Cable

Compatible with all brands of SAE connectors. This handy extension cable is perfect if you need more cable length.

PWR-PAC-022-24 ..... **24" Long** **$8.95**

Marsee/Powerlet Socket

Marsee Products has designed a receptacle for the Powerlet external socket which in turn mounts to a Techmount handlebar clamp. The receptacles can be mounted solo or back to back on a Techmount handlebar clamp. This expands the number of outlets available to accessories. Also, receptacles can be placed closer to the accessory. Purchase the Marsee/Powerlet Socket (includes receptacle and electrical components) and the Handlebar Clamp separately.

TEC-PSKT.....**Marsee/Powerlet socket**.....**$100.00**
TEC-CLAMP78.....**7/8" handlebar clamp**.....**$30.00**
TEC-CLAMP1.....**1" handlebar clamp**.....**$30.00**
TEC-CLAMP118.....**1-1/8" handlebar clamp**.....**$30.00**
TEC-CLAMP114.....**1-1/4" handlebar clamp**.....**$30.00**

External Sockets

Powerlet Front Panel Socket Kit

Our most popular panel kit. The 48 inch length is perfect for reaching from an under-the-seat battery to a front panel.

PWR-PKT-042-48 .....**$39.95**

Powerlet Side Panel Socket Kit

This 24 inch length works very well on metric cruiser, Harley Davidson, and sportbike side panels. This kit works equally well on front panels for bikes with the battery in the front fairing.

PWR-PKT-042-24.....**$37.95**

The Powermate Kit

Molded plastic SAE flange mounts conveniently into any tankbag or saddlebag (soft or hard sided luggage). Easy to install, this bulkhead connector permits power to be passed through the luggage wall. The Powermate includes: Anodized backing plate, black oxidized stainless screws, stainless Ny-Lock nuts, plus detailed instructions. It is simple to install. Internal plug is SAE male. External plug is SAE female. To build your own Electrical Kit, purchase this item, plus an external power source and the internal cables that you require for your devices.

PWR-PTB-001.....**The Powermate Kit** **$24.95**

Internal Cables

Powerlet to Garmin 4-pin Coil Cord

Works with various Garmin models including the Garmin III+, V and Streetpilot requiring Garmin's 4-Pin round connector. Features a 36" coil cable and Powerlet Right Angle Plug.

PWR-PPC-001 .....**$34.95**

Powerlet to Escort Power Cord

Works with Escort Radar Detectors. These cables directly connect your detector to a Powerlet Socket.

PWR-PPC-004 .....**$24.95**

Powerlet Cigarette Adapter

Connects any cigarette plug to a Powerlet socket. 10" approximate length.

PWR-PAC-002 .....**$19.95**

Powerlet Basic Plug To SAE

Manufactured with a basic plug (PPL-001) and 18awg wire. Ideal solution to connect a battery charger through a Powerlet socket. 12" long.

PWR-PAC-008.....**$14.49**

Powerlet Plug to Banana Plug

Used around the shop to plug into a Powerlet socket and check the state of a battery; useful to diagnose charging problems. 18" long with standard banana plug.

PWR-PAC-003 .....**$14.95**

Powerlet to 2 SAE

Ideal to split your Powerlet socket into 2 SAE's.

PWR-PAC-006.....**$22.95**

Powerlet Plug to 2 Powerlet Sockets

Splits a single Powerlet socket into 2.

PWR-PAC-007 .....**$34.95**

Powerlet to SAE Cable

Manufactured with a deluxe plug (PPL-002) and 16awg wire. Ideal for connecting a battery charger, heated clothing or Luggage Electrix through a Powerlet socket.

PWR-PAC-009-24.....**24" Length** **$22.95**
PWR-PAC-009-30.....**30" Length** **$23.95**

Powerlet Electrical Products

Powerlet Super Plug to SAE-Heavy Duty Cables

Manufactured with a super duper plug (PPL-003) and 16awg wire. Ideal solution to connect a battery charger, heated clothing or Luggage Electrix through a Powerlet socket.

PWR-PAC-010-06.....**6" Length**.....**$20.95**
PWR-PAC-010-12.....**12" Length**.....**$21.49**
PWR-PAC-010-18.....**18" Length**.....**$21.95**
PWR-PAC-010-24.....**24" Length**.....**$22.49**
PWR-PAC-010-30.....**30" Length**.....**$22.95**

Powerlet to SAE Cable

External cable for powering SAE Luggage Electrix Bulkheads. Low profile right angle plug (PPL-004) for maximum clearance. Can also be used to convert a battery charger or SAE heated clothing to a Powerlet socket.

PWR-PAC-011-06.....**6" Length**.....**$17.95**
PWR-PAC-011-12.....**12" Length**.....**$18.49**
PWR-PAC-011-18.....**18" Length**.....**$18.95**
PWR-PAC-011-24.....**24" Length**.....**$19.49**
PWR-PAC-011-30.....**30" Length**.....**$19.95**

24" Powerlet to Cigarette Socket Cable

Convert any device that has a cigarette type plug to a Powerlet socket (BMW type), including cell phones, radar detectors, air compressors, etc. Designed to reach inside tankbags, this cable uses a low profile right angle plug.

PWR-PAC-012 .....**$24.95**

SAE Y-Cable

Converts one SAE into two SAE's. Great for Luggage Electrix or for powering two heated vests from one SAE battery lead. 6" long.

PWR-PAC-023 .....**$12.95**

SAE to Cigarette Socket Cables

Convert a SAE Luggage Electrix lead (Battery Tender harness) to a Cigarette socket. Good for cell phones, radar detectors & GPS units. Carry this in case of an emergency, plugs into any Battery Tender lead!

PWR-PAC-024-12.....**12" Length** **$15.95**
PWR-PAC-024-18.....**18" Length** **$15.95**

SAE to Powerlet Socket Cable

Convert a SAE Luggage Electrix lead (Battery Tender harness) to a Powerlet socket. 6" long.

PWR-PAC-025.....**$18.95**

SAE to Cigarette Socket and SAE Y-Cable

Convert a SAE connector or Battery Tender pigtail into one cigarette socket & maintain the SAE. Good for cell phones, radar detectors, heated vests & GPS units. 6" long.

PWR-PAC-026.....**$21.95**

SAE to Cigarette Socket and Powerlet Socket Y-Cable

Convert one cigarette socket & one Powerlet (BMW type) socket. Good for cell phones, radar detectors, heated vests & GPS units. 6" long.

PWR-PAC-027 .....**$29.95**

Powerlet to Two Cigarette Sockets

Connect two cigarette plugs to a Powerlet socket. Approx 10" & 12" long leads.

PWR-PAC-028.....**$26.95**

Powerlet to Cigarette & Powerlet Socket

Connects any two devices that have a cigarette type plug to a Powerlet socket (BMW type), including cell phones, radar detectors, air compressors, etc. 8" & 10" staggered length.

PWR-PAC-029 .....**$27.95**

SAE to Dual Cigarette Socket Y Cable

Convert one SAE connector to two cigarette sockets. Good for cell phones, radar detectors & GPS units. 6" long.

PWR-PAC-030 .....**$22.95**

Powerlet to Dual Cigarette Socket Coil Cable

Connects any two devices that have a cigarette type plug to a Powerlet socket (BMW type), including cell phones, radar detectors, air compressors, etc. Coil cord is 24" then stretches to over 4 ft for easy connection.

PWR-PAC-031.....**$28.95**

SAE to 2 Powerlet Sockets Y Cable

Convert one SAE connector to two Powerlet sockets. 6" long.

PWR-PAC-034 .....**$32.95**

SAE to Cigarette and Coax Y Cable

Convert one SAE connector to a cigarette socket and one coax for a heated garment. Good for cell phones, radar detectors & GPS units along with powering Powerlet, Gerbing's or Warm & Safe heated clothing. 6" long.

PWR-PAC-035 .....**$29.95**

Relay Socket

Prewired relay socket for use with Bosch type automotive relays. Features five 14 gauge multi-colored 12" leads and are gangable. Includes wiring diagram.
FAS-200-001 .....**$3.95**

Guaranteed Lowest Prices!

Bosch OEM Relay

- Bosch P/N (0 332 209 150) SPDT automotive relay
- OEM on many applications
- Plastic housing w/ mounting tab
- 30 amp

FAS-201-002 .....**$8.95**

Relay and Socket Assembly

12V SPDT 30 amp relay and prewired socket with 12" leads. Many uses include controlling fuel pump, water pump, fans, or any other high current accessory. Diagram included.
FAS-900-000 .....**$6.95**

Assorted Terminal Kit- 180 Piece

Includes in-line butt-splices, quick disconnects, 22- 10 AWG closed ring and open spade terminals.
RPW-05107 .....**$9.99**

Auto Electrical Repair Kit

This handy repair kit contains a voltage tester, crimping tool, fuse puller, test leads and 202 electrical parts for auto, truck, motorcycle and RV repair. This kit needs to be in your trunk or traveling toolbox!
RPW-05207 .....**$26.99**

Battery Jumper Posts

Makes it easier to jump-start or charge the battery; color-coded red and black.
LAR-45720 .....red, positive.....**$13.71**
LAR-45740 .....black, negative **$13.71**

Battery Lugs

- Flared end for easy cable insertion
- Heavy duty copper lugs
- For #2 or #4 cable
- Can be crimped or soldered

$3.45/ pack of 4

FAS-405-112.....#4 gauge, 5/16" hole
FAS-405-113.....#4 gauge, 3/8" hole
FAS-405-012.....#2 gauge, 5/16" hole
FAS-405-013.....#2 gauge, 3/8" hole

Centech AP-1 Auxiliary Fuse Panel

The AP-1's compact size (3.0" x 2.4" x 1.25") allows for easy installation. Once the fuse panel is mounted, you simply attach the positive and negative wire between the power source (battery or relay) and the heavy power studs on the panel. This will allow the AP-1 to supply safe, fused power for up to eight individual electronic devices, including radio, GPS and other accessories up to 60 amperes. Each AP-1 comes complete with fuses and necessary hardware, instructions and one year warranty.
CEN-AP-1 .....**$52.95**

Centech AP-2 Dual Fuse Panel

The AP-2 fuse panel is identical to the AP-1 panel with the exception that the AP-2 is divided into two electrical sections. The main section contains three fuses and feeds five outputs while the second section has two fuses and three outputs. The advantage of having two sections is that it allows the enthusiast to have fused power available for devices which need constant battery power and those which need to be switched "OFF" with the ignition key. The AP-2 can handle a maximum of 60 amperes divided into a 40 ampere and 20 ampere section. The built-in GROUND section handles a maximum of 60 amperes. The AP-2 can be connected directly to the battery or to your ignition switch. Each AP-2 comes complete with fuses and necessary hardware, instructions and one year warranty.
CEN-AP-2 .....**$54.95**

BestRest Universal Power Plug

The unique design of this male power plug allows it to fit a european-style DIN (BMW) power outlet, or an SAE automotive cigarette outlet. Your powering options just doubled! To convert from a cigarette lighter plug to a BMW plug, just pull off the black ring. When you're done, replace the ring and it'll fit the cigarette outlet again. You'd be surprised just how handy this dual purpose plug becomes.
BR-PP-U **$10.00**

Circuit Breaker Panels

Simplify many automotive wiring projects with these 4 gang circuit breaker panels featuring automatic reseting circuit breakers, 10-32 stud terminals, common input bus bar and all metal mounting bracket. Available in 10 or 20 amp configurations for 12 volts.

FAS-950-001.....4-20 amp.....**$23.95**
FAS-950-002.....4-10 amp.....**$23.95**
FAS-950-000.....2-10 amp & 2-20 amp CB panel..**$23.95**

Terminal Strip Kit

- Use to eliminate splicing and simplify many automotive wiring projects
- Contains 3 quality double row terminal blocks (4, 6 and 8 position) with 6-32 screws and 40 16-14 gauge nylon double crimp ring terminals.

FAS-940-200 .....**$17.95**

Ground Terminal Strip

This common bus brass terminal strip is the best and right way to create a ground circuit for your dash area or accessories. Has (10) 8-32 screw terminals and (2) 1/4-20 supply studs on an insulated base with mounting holes.

FAS-406-210 .....**$16.45**

High Temp Sleeving Kit

Kits include 3' length of Fastronix Ultra high temp sleeving and (6) adhesive lined heat shrink ends to hold and bond sleeving. Use to protect cables and wiring from extreme heat areas.

FAS-140-110 .....3/8" **$9.95**
FAS-140-120 .....1/2" **$15.95**
FAS-140-130 .....3/4" **$21.95**

Individual High Temp Sleeving also available. Visit online or call for more information.

Mini Heat Gun & Heat Shrink Tubing Kit

Heat Gun
- Compact, lightweight heat gun
- Nozzle temp. to 1000°F
- Uses standard 110v AC outlet
- 6' electric cord with bench storage loop.

Heat Shrink Tubing Kit
- General purpose heat shrink
- Shrinks to half of its original size
- 60-piece assortment
- Sizes include: 1/8", 3/16", 3/8" & 1/2"

RPW-25252 .....Mini Heat Gun and Heat Shrink Tubing Kit **$49.95**
RPW-25259 .....Replacement Heat Shrink Assortment **$9.95**

Pre-Cut Heat Shrink

1-1/4" long dual-wall heat shrink pieces with adhesive liner allows you to quickly secure & weatherproof all crimp terminals, wire splices & connections.

LAR-44908....Spark plug wire crimp dies ..**$35.05**

CTEK™ US 800 Battery Charger

- Easily charges all small batteries.
- Excellent maintenance charger for seasonal vehicles.
- Charges lead-acid batteries (Wet, MF, Gel and AGM) from 1.2Ah to 32Ah, 1.2Ah to 100Ah for maintenence charging.

CTK-56171.....**$44.99**

CTEK™ Multi US 3300 Battery Charger

- Especially well-suited for automotive use.
- Fast recharging and powerful maintenance performance, even in the coldest weather conditions.
- Charges lead-acid batteries (Wet, MF, Gel and AGM) from 2Ah to 90 Ah.
- Three modes for small batteries, large batteries and a special cold mode that is suitable for AGM batteries.

CTK-56158.....**$62.99**

Battery Tender® Plus Battery Charger

Differs from a trickle charger in that it automatically switches from a full charge to a float-charging mode and then monitors the battery. You can leave the battery tender connected to a battery for extended periods of time without worrying about boiling or overcharging the battery. Check fluid level monthly. **The Battery Tender Plus has a 10 year warranty** and temperature compensation.

BAT-TENDER **$49.95**

Odyssey Batteries

The Odyssey battery combines in one box the characteristics of two separate batteries. It can deep cycle as well as provide enormous cranking power. These batteries are capable of providing engine cranking pulses in excess of 1700A for five seconds as well as 400 charge/discharge cycles to 100 percent depth of discharge (DOD). Odyssey batteries will provide short-duration high amperage pulse or low-rate with long-duration drains.

PC-545MJ

PC-680MJ

Features:

- Guaranteed longer service life (with a 10-year design life and a three- to eight-year service life, Odyssey saves you time and money because you won't have to replace the battery as often)
- Superior cranking and fast charge capability (The five-second cranking power of Odyssey batteries is double to triple that of equally sized conventional batteries, even at low temperatures)
- Mounting flexibility (The Odyssey battery may be installed on its sides at any angle)
- Superior vibration resistance
- Two-year storage life when fully charged
- Deep discharge recovery

See www.racerpartswholesale.com for a complete motorcycle application guide.

Odyssey Ultimizer Battery Chargers

- Designed specifically for Odyssey batteries only
- UL 815G listed
- 3-step charge profile ensures fast, complete & safe charge
- Continuous trickle charge keeps battery fully charged during extended periods of non-use
- Sequential charging technology keeps triple bank chargers lightweight & compact

Posi-Tap 16-18 Gauge Wire

• Powers (2) 20, (1) 18, or (1) 16 gauge accessory leads.
• Max Tap OD .105" (2.7 mm) 16 ga, Min Tap OD .072" (1.85) 20 gauge
• Max Accessory OD .125" (3.2 mm)
POS-PT1618 .....**$3.75**

Posi-Tap 20-22 Gauge Wire

• Powers (2) 20, (1) 18, or (1) 16 gauge accessory leads.
• Max Tap OD .075" (1.85) 20 ga, Min Tap OD .065" (1.65)
• Max Accessory OD .125" (3.2 mm)
POS-PT2022R **$3.75**

TECHMOUNT Accessory Mounting Systems

Techmount has been designing, developing and manufacturing high quality products since 1995. As motorcyclists and motorcycles become more technically oriented, the need for additional accessory mounting means become vital. We like the Techmount handlbar, fork and stem mount accessories because all the mounting tools required for installation come with the products and there is no drilling or fabrication required for installation. Techmount products are 100% American made and are machined from T6 6061 aluminum to precise tolerances then plated with durable anodize or chrome finish. All hardware used in stainless steel.

Handlebar Mount Systems

These universal clamp systems are designed for round tube handlebars from 7/8" to 1-1/4" in diameter and require only 1/2" of handlebar space. The ball and socket design used on these mounts allow a wide range of movement making installation at complex angles possible. The top plate can be rotated 360 degrees, as well as offset left, right or center. All of this adjustability makes these one of the most popular systems.

Silver, 3.5" Shaft

TEC-30996 .....7/8" Handlebar Mount **$69.95**
TEC-30997 .....1" Handlebar Mount **$69.95**

TEC-30998CM ..1-1/8" Handlebar Mount....**$80.00**
TEC-30999CM ..1-1/4" Handlebar Mount....**$80.00**

Stem Mount Systems

Stem mount systems fit snugly into the hole in your sport bikes steering head, utilizing a series of O-rings that gets progressively tighter as the mount is pushed into the hollow stem hole. Once installed, this system provides a secure, centrally located mounting location. The top plate angle and shaft height are adjustable to suit a variety of accessories. There are no tools needed for installation. Fits most popular Japanese and European sport bikes.
Visit www.racerpartswholesale.com for further application information.

Black Stem Mount, 3.5" Shaft (pictured)

TEC-10990	**16mm**	**$65.00**

27mm Stem Nut Replacement Mount

Stem Nut replacement. This mount replaces the O.E.M. stem nut with our custom nut. Mounts devices center over top triple clamp. Requires 36mm socket wrench to install and re-torque to factory spec. Silver only.
TEC-10998 ..... 3.5" Shaft **$70.00**
TEC-10998 ..... 2.5" Shaft **$70.00**

Euro Mount Systems

Euro Mount Systems mount onto the top of the fork tube on many European sport bikes. This system is easily installed by sliding the clamp over the fork tube that protrudes from the top triple clamp and tightening the tension screw. Since each Euro Mount is machined to match the fork tube diameter, once installed it looks as if it's part of the bike. Silver color.

TEC-70048	**48mm**	**$75.00**
TEC-70050	**50mm**	**$75.00**

RAM-B-201-ACHU

RAM-B-201

Ram Medium Square Size Aqua Box

The RAM Mount Medium-Wide Aqua Box is designed to hold a large number of medium size devices. Made from high strength composite, the Aqua Box 6 holder is a medium/wide size waterproof box with a clear Flex-Lens allowing you to press and operate the buttons of your device when secured in the Aqua Box. The box offers the ability to lock the device inside with a small keyed padlock (not included.)
Internal dimensions: Width 4", Height 6", Depth 1.75"
External dimensions: Width 5.25", Height 6.5", Depth 2"
RAM-HOL-AQ6U **$40.49**

Ram Aqua Box

The RAM Mount Aqua Boxes provide sealed enclosure and protection for your handheld devices. The clear, touch through screen allows you to view your electronics as well as use their function keys while in place. Available in two sizes.

Medium:
Internal Dimensions: Width 2.88", Height 5.75", Depth 1.88"
External Dimensions: Width 4", Height 6.5", Depth 2"
RAM-HOL-AQ2U **$29.49**

Small:
Internal dimensions: Width 2.38", Height 4.63", Depth 1.13"
External Dimensions: Width 3.5", Height 5.25", Depth 1.5"
RAM-HOL-AQ3U **$30.36**

Ram Medium Mobile Phone Holder

Similar features as the Large Mobile Phone Holder, but fits smaller phones and devices.
Minimum Width: 2.22"
Maximum Width: 3.75"
Side Clamp Height: 5.0"
Side Clamp Depth: 1.25" (Maximum)
Cradle Height: 4.0"
RAM-HOL-UN2U **$22.12**

Ram Large Mobile Phone Holder

This pinch type holder is great for products like the BlackBerry. Well placed foam pads provide support and grip to the mounted device.
Minimum width: 2.25"
Maximum width: 3.37"
Side Clamp Depth: 0.875" to 3.875"
RAM-HOL-UN3U **$19.21**

Ram Mount for Apple I-Pod

The RAM cradle is designed to hold the following Apple iPod units:
With Firewire Connection: 5 GB and 10GB
With Dock Connection: 10GB Gen 2, 15 GB Gen 2, 30GB Gen 2, 15GB Gen 3, 20GB Gen 3 and 40 GB Gen 3
RAM-HOL-AP1U **$8.28**

Ram Holders for Garmin GPS Units

With mounts available that are perfect for cars, trucks and motorcycles, RAM is your best choice for your Garmin GPS units. Able to connect to the units in seconds, RAM can get your GPS exactly where you want it so it's easy to read and use. Simple design that will not block or interfere with any function of the Garmin. Most Holders do not include a mounting ball.

Ram Holder Garmin Nuvi 300, 310, 350, 360 & 370

RAM-HOL-GA21U
.....**$7.64**

Ram Holder Garmin 60 Series

For Garmin 60 Series GPSMAP 60, 60C and 60CS
RAM-HOL-GA12 .....**$7.87**

Ram Holder for Garmin Nuvi 660

RAM-HOL-GA23U.....**$8.28**

Ram Holder Garmin Quest

RAM-HOL-GA15U **$10.41**

Ram Holder Garmin Nuvi 500

RAM-HOL-GA32U **$8.95**

Ram Holder for Garmin StreetPilot Series

For Garmin StreetPilot C320, C330, and C340. Comes with Ball on back.
RAM-HOL-GA19U **$15.23**

Chatterbox GMRS X1 with Bluetooth

Guaranteed Lowest Prices!

Chatterbox introduces the new and improved GMRS X1 Bluetooth edition. We took the most powerful unit on the market and gave it the Bluetooth Technology that everyone has been asking for. Now you can pair up to two accessory devices at a time without the use of wires. Answer your Bluetooth cell phone, listen to your Ipod/Mp3 player (w/Bluetooth adapter) or get voice prompted directions from your bluetooth GPS. The new features also include a Hi-Fi sound noise reducing headset and 22 channels to choose from when communicating. Kit includes: GMRS unit, noise reducing headset with speakers, push-to-talk switch, charger, and mounting hardware.

CBR-CBX1BTF .....**Kit w/Full Face Headset** (pictured)
CBR-CBX1BTO .....**Kit w/Open Face Headset**
CBR-CBX1BT.....**GRMS X1 w/Bluetooth Unit only**

Chatterbox GRMS Kit with Noise Reducing Headset

This is Chatterbox's most technologically advanced unit ever. They took our most powerful communicator and combined it with our most sophisticated features to create the most powerful (up to 5 miles) unit on the market. The GMRS X1 has a large illuminated display and is VOX (voice activated) or PTT (push to talk) with a built in intercom for talking to a passenger. Other features include cellular phone input (*call for compatibility), audio input with full stereo sound, radar detector, and voice prompted GPS input. All of these features packed into a tough water resistant casing. Includes GRMS unit and noise reducing headset.

CBR-CBX1FKIT .....**Kit with Full Face Headset**
CBR-CBX1OKIT .....**Kit with Open Face Headset**

Chatterbox X1/ X2 Stereo Headset Extension Cord

Noise reducing headset extension cord. Perfect for mounting your X1 unit someplace other than your helmet. **CBR-CBXHSEX**

Chatterbox X1/ X2 DC Power Filter Cord

With the Chatterbox DC power filter cord there are no worries of the batteries in your X1 unit going dead. Wire directly to your bike or car's power. **CBR-CBXPREX**

Chatterbox XBi Wireless Intercom with Bluetooth Kit

The Chatterbox XBi intercom system was built upon customers suggestions and is unlike any other on the market. Communicate rider to passenger via CDMA crystal clear technology, using either voice activation or push-to-talk. Both rider and passenger module is capable of pairing with up to two accessory devices at the same time. (ex. iPod, Mp3, satellite radio, GPS, cell phone, radar detector). SMART technology will automatically prioritize the transmission of the paired devices. The XBi is so far advanced that it can even stream music from one module to the other. Each module is also capable of being used by itself to pair accessories when riding alone. Other features include: Li-Pol (lithium polymer) rechargeable battery with 6-8 TRUE hours of power, 1 hour express charge, noise suppression Hi-Fi headset, compact aerodynamic module design. Each kit includes: module, Li-Pol battery, wall charger, headset and mounting hardware. Note: Two kits are needed for rider to passenger set-up.

CBR-CBXBIFKIT .....**Full Face Kit** (pictured)
CBR-CBXBIOKIT .....**Open Face Kit**

Chatterbox XBi2 Wireless Intercom

The XBi2 is Chatterbox's latest bike-to-bike wireless intercom that also comes equipped with A2DP Bluetooth technology. It has all the features that the XBi has but with additional power that will allow simultaneous communications between 3 riders with up to 500 meters of range in optimum conditions. It will allow you to stream audio signal from any source that already comes equipped with Bluetooth such as phones, Mp3, GPS and more. It will allow for up to 6-8 hours of true talk time and 48 hours of standy time on one charge.

Kit Includes:
- XBi2 Unit
- Microphone/speakers
- Rechargeable/Replaceable Li-Poly Battery
- Mounting Hardware
- AC/DC Home Charger

SPI-SM10 .....**$40.00**

Universal Helmet Mount

This flexible rubber sleeve keeps your camera tight while the hook and loop backing secures the mount to the helmet surface.
SPI-UBM.....**$12.95**

Standard Hyper-Lite Brake Light Kit

These legendary Hyper-Lites superbright LED brake lights completely encased in epoxy wrapped in textured black ABS are more than just "weather resistant"- they run in rain, snow, heat and cold. Our brake light intensity level was chosen to be bright enough to be hugely effective, but not blinding or prone to induce road rage. Hyper-Lites are the original and patented LED flashing motorcycle brake lights. All flashing Hyper-Lite kits can be installed to flash continuously about three times per second when braking or to flash for 5 seconds then go solid. Select between 8 LEDs per light or 16 LEDs per light.

HYP-HLUNIV.....8 LEDs per light (16 total).....**$55.95**
HYP-HLU32.....16 LEDs per light (32 total).....**$75.95**

Dual-Function Hyper-Lite Brake Light Kit

This kit features running lights at a reduced (30%) intensity and full intensity brake lights. Although the running lights are only 30% as bright as our brake lights, they are still up to twice as bright as OEM running lights and won't fade in bright sunlight. Some motorcyclists are uncomfortable with the startling nature of flashing brake lights, so we introduced modulators. They fluctuate between high (brake light) intensity and low (running light) intensity rather than flashing on and off. Still very effective, they are somewhat less noticable than flashing brake lights. Can be configured as constant modulating or 5 second modulating then solid. Select between 8 LEDs per light or 16 LEDs per light.

HYP-DFUNIV .....8 LEDs per light (16 total) **$73.95**
HYP-DFU32 .....16 LEDs per light (32 total) **$93.95**

On/Off/On Switch

This 6 amp switch has a single power in and two power out. The LED is lit when either circuit is on. This switch is included in the Hyper-White Running Lights/Modulating Running Light Combination Set.

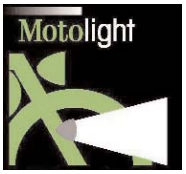
HYP-TOGLED3 .....**$24.95**

Hyper-White Running Lights/Modulating Running Light Combination

In addition to two 16 LED white running lights, this set also includes an on/off/on switch with LED indicator, a dual function controller with modulating and full intensity solid circuits, 5 feet each of extra power and ground wires, and the Posi-Tap and Posi-Twist connectors needed to install.

HYP-MDFW16 .....**$159.95**

Motolights



Motolights are designed as additional lighting in conjunction with the OEM headlamp of the motorcycle. In daytime, they create 2 additional distinct points of light (not unlike the ditch lights required on locomotives) to increase the conspicuity of the motorcycle to other vehicles. The OEM headlamp will light the outside of the corner (where you don't want to go) while the Motolights light the path you are following through a corner. They use MR16 halogen lamps, 35watt, with an 8-degree beam spread (among the narrowest spots in MR16 lamps) made by one of the premier lighting manufacturers. Motolights offers free lamp replacement to the original purchaser. The housings are cast aluminum, CNC machined, and come in brushed, black powder coated, polished or chrome finish. Brackets are machined from 6061-T6. Mounting brackets are precision machined from aircraft grade aluminum and are specifically designed to be mounted on the motorcycles caliper. The kit comes complete with all necessary hardware, cable ties, hex head wrench, 3M inline wire tap, illustrated instructions and an 800 phone number if you have problems. Each set is covered by a lifetime warranty to the original purchaser as well as free bulb replacement. There is also a 30-day refund if not completely satisfied. Motolights makes this guarantee because their lights don't come back.

Motolight is built to be the best!

Hyper-White Running Lights

Looking for a way to make oncoming drivers notice you without tying up your headlights? This is it! The Hyper-White running lights feature a pair of White 16 LED modules that put out 55,000 mcd each and an on/off switch with LED indicator. Oncoming drivers see super high output running lights. Your charging system sees a paltry 260 mA current draw at 13.9 volts. These lights do not take the place of your driving lights, but are hugely effective at alerting oncoming traffic of your presence. They DO NOT project a useable volume of light on the road.

HYP-NFWRUN16 .....**$119.95**

BeadRider Seats & AirHawk Seat Cushions

BeadRider Seats

Guaranteed Lowest Prices!

Until they try a seat made of wooden beads, most people do not believe they can be comfortable. BeadRiders allow air to flow between the rider and the saddle, keeping you dryer and cooler. If you really want proof of the airflow, just use a set of BeadRiders on a cool day, and it won't take long to convince you that cold air is flowing beneath you. Beaded seats also allow for the dispersion of your pressure points over a larger area. Your comfort level while riding in the rain is helped by a set of BeadRiders. The seat allows you to stay high and dry, while water drains through the seat below you, instead of pooling underneath you

If you are unsure what size you need, **please visit www.racerpartswholesale.com for an application guide.**

AIRHAWK Motorcycle Seat Cushions

The last mile feels like the first, thanks to AIRHAWK's® exclusive Shape Fitting Technology®. Patented system eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride. And it's fully customizable and portable – use it on any bike, for any rider. Every AIRHAWK motorcycle seat cushion is handcrafted from soft, pliable, non-hardening neoprene and features a breathable, stretchable outer cover with a non-skid bottom, as well as tie-down straps. It'll stay where you put it. Open mesh side panels allow air to circulate between the air cells and out the side of the cushion, reducing heat build-up and keeping you cool and dry. The cushion is waterproof, and the cover material is made of quick-dry material, just in case it gets rained on. Small-interconnected air cells evenly distribute your weight and pressure over the whole cushion, reducing the "hot spots" that cause pain. The air cells also work as mini shock absorbers, reducing vibration. Once you've tried it, you won't ride without it.

Seating system comes standard with cover, attachment loops and cruiser straps.

Infared Laser Pyrometer

- Instant response, non-contact temps
- °F or °C up to 600°.
- Back lite for night use
- Laser sighting for accuracy
- Holds readings longer for easier use

LAR-50612 .....**$76.75**

Dial Tread-Depth Gauge

Our dial tread-depth gauge is super-accurate! It's calibrated in 1/32-inch increments. It's accurate to 1/128th of an inch (that's less than 0.010 of an inch!) It's easy to read, easy to use and it comes with its own padded pouch.

LAR-50560 .....**$20.65**

Robic SC 507 Stopwatch

- Electroluminescent (EL) backlight illuminates entire display, on demand
- Lap, split or single-event timing
- 1/1000-second precision to 24 hours
- Reads to .0001-second
- Shows current running lap or split times
- Extra large display with large numbers

RPW-SC507 .....**$21.99**

Tire Gauges

Standard Tire Gauge- Our deluxe high-accuracy gauge comes with a large psi-scale and a 2-1/2-inch face for quick, error-free readings. It has a special shock-resistant rubber gauge protector & a straight, 14-inch flexible hose. It has a super-quick bleed valve. It's simply the best!

RPW-B15 .....**0-15 psi**.....**$19.99**

Order a case of 12 (same part #) of ANY RED LINE OIL and SAVE!

Please Note: Oil prices fluctuate. Please call 1-800-397-7815 or visit www.racerpartswholesale.com for current prices.

Why Red Line Oil:

Since 1979, Red Line offers more than 100 quality products, including motor oils, gear oils, assembly lubes, fuel additives, and its popular Water Wetter cooling additive for the automotive, motorcycle, marine, and industrial markets.

Red Line formulates fully-synthetic oils and chemically-advanced additives using the world's finest base stocks. Rather than cutting costs by blending in petroleum products, Red Line's motor oils and gear oils use superior ester base stocks that provide extreme stability at high temperatures and superior film strength at lower viscosities where more power can be produced.

Red Line Motorcycle Oils

As part of Red Line's all-new Powersports line, these High Performance Motorcycle Oils are fully-synthetic forumulas specifically created for the high demands of the latest high-revving four-stroke motocross bikes and ATVs, Sportbikes, and V-Twins.

Motorcycle Oils

RD4-2304 .....**10W30** — Designed for the latest high-revving four-stroke motocross and ATV engines, as well as for four-cylinder and V-Twin Sportbikes that specify a 10W30 motor oil.

RD4-2404 **10W40** — Designed for the latest high-revving four-stroke motocross and ATV engines, as well as for four-cylinder and V-Twin Sportbikes that specify a 10W40 motor oil.

RD4-2504 .....**20W50** — Designed for the latest Big-Twin motorcycle engines that specify 20W50 motor oil, including Evos ('84-up) and V-Rod.

RD1-2604 **20W60HD** — Specifically blended for air-cooled V-Twin engines with traditionally wide clearances like Knuckleheads, Shovelheads, and Panheads engines. Also compatible with V-twins operated in hot climates.

Gear Oils

RD4-2704 .....**80W w/Shockproof** — Designed for applications like two-stroke motocross bikes, shifter karts, the CRF 250 450 transmission. Used where an 80W oil is called for, ShockProof's microscopic solid medium provides cushioning between gear teeth, while maintaining lower drag. Reduces the thinning effect from high temperatures.

RD4-2804 .....**V-Twin w/Shockproof** — V-Twin Transmission Oil with ShockProof® is similar to Red Line's Heavy Shockproof and provides unequalled protection for both stock and aftermarket American V-Twin transmissions. This oil dampens transmission noise (reducing the notorious shifting "clunk" often found in these gearboxes), dramatically reduces temp., provides thicker oil films between gear teeth and completely resists throw-off. Itl is compatible w/ petroleums and synthetics. The viscosity characteristics allow the lubricant to resist throwoff and provide a film thickness similar to a 75W250 grade, at the same time providing the same low fluid friction as an SAE 75W90.

RD4-2904 .....**V-Twin Primary Case** — Red Line's new V-twin Primary Case Oil is designed for '84-to-present V-Twin American motorcycle engines. This includes aftermarket engines of similar designs. This product is similar to Red Line's MTL and is for use in the primary chaincase with wet-diaphragm spring clutches. It is designed to operate over a wide temperature range and improves clutch operation while reducing wear and temperature. Many synthetics are too slippery for clutch operation, however this friction-balanced product is balanced to provide less slip, smoother operation, and helps to apply more power in modified engines.

Fuel System Cleaner

Complete Fuel System Cleaner for Motorcycles. Pour one bottle into a street bike, dirt bike, ATV or PWC for quick clean-up, to regain lost power and improve fuel economy. **RD6-0102** (4 oz.)

We are one of the largest Red Line Oil distributors in the country and stock Red Line's complete line!

If you are looking for Motor Oils, Race Oils, Gear Oils, Water Wetter and more, please visit us online at www.racerpartswholesale.com or call us at 1-800-397-7815.

Red Line Oil PowerPacks

If cooler operating temperatures, better shifting, less noise and less wear interest you, then you need to check out the PowerPacks from Red Line Oil. These PowerPacks include the Red Line Oil Motorcycle Oils in convenient packages that are complete oil change kits in one box! Each kit has been tested for compatibility and includes enough fluids for a complete oil change.

RD9-0226 (pictured) ..**Big Twin 20W50** — This kit is best for all Evos ('84-up) and includes 5 quarts of Red Line's new 20W50 motorcycle engine oil, 1 quart of Heavy ShockProof for the transmission, 1 quart of MTL for the primary chain case, 1 bottle of Fuel Injection Cleaner for Motorcycles, Red Line decals, a Red Line Oil embroidered hat, and a versatile funnel.

RD9-0231....**Big Twin 20W60HD** — If you're riding a Knucklehead, Shovelhead, or Panhead (as well as Big Twins operated in hot climates or with wide clearances) this is your kit. You'll find 5 quarts of Red Line's new 20W60 motorcycle engine oil, 1 quart of Heavy ShockProof for the transmission, 1 quart of MTL for the primary chain case, 1 bottle of Fuel Injection Cleaner for Motorcycles, Red Line decals, a Red Line Oil embroidered hat, and a versatile funnel.

RD9-0227....**Sportster/Buell** — Includes 5 quarts of Red Line's new 20W50 motorcycle engine oil, 1 quart of 75W90 for the transmission, 1 bottle of Fuel Injection Cleaner for Motorcycles, Red Line decals, a Red Line Oil embroidered hat, and a versatile funnel.

RD9-0228....**V-Rod** — Includes 5 quarts of Red Line's new 20W50 motorcycle engine oil, 1 bottle of SuperCool with WaterWetter, 1 bottle of Fuel Injection Cleaner for Motorcycles, Red Line decals, a Red Line Oil embroidered hat, and a versatile funnel.

RD9-0229....**Sportbike 10W40** — This Sportbike kit includes 4 quarts of Red Line's new 10W40 motorcycle engine oil, 1 bottle of SuperCool with Waterwetter, 1 bottle of Fuel Injection Cleaner for motorcycles, Red Line decals, a Red Line hat, and a versatile funnel.

Lucas Oil Products

Lucas High-Performance Motorcycle Oils are the result of technology gained through years of blending motor oils and gear oils for the racing, industrial and agricultural industries. Lucas Oil is trusted by professionals throughout the world to protect their racecars, trucks and machinery, and now you can trust it to protect your motorcycles and ATV's!

Lucas offers a full line of motorcycle oils that far exceed all OEM specifications for the motorcycle and ATV industry. Lucas Motorcycle Oil will lower oil temperature, extend the life of your vital components, reduce noise, reduce leaks and increase performance. On top of all that, it will outlast other oils up to 4 times as long! Lucas Motorcycle oils can be used in any motorcycle or ATV engine, air cooled or water cooled. Give Lucas a try and experience the results for yourself!

Lucas High Performance Motorcycle Oil

Lucas Motorcycle Oil is built for endurance, lasting up to 4 times longer than other brands. It will also lower oil temperatures, extend the life of vital components, reduce noise and leaks, and increase performance. The SAE 20W-50 is also an excellent gear oil and primary oil. The Synthetic SAE 50W was designed specifically for the air-cooled V-twin engines. All Lucas Motorcycle Oils meet JASO specifications. 1 Quart.

LUC-10700.....**SAE 20W-50**
LUC-10702.....**Syn SAE 20W-50**
LUC-10710.....**Semi-Syn SAE 10W-40**
LUC-10712.....**SAE 50 wt. (pictured)**
LUC-10765.....**Syn SAE 50W**
LUC-10714.....**SAE 70 wt.**

Pure Synthetic Gear Oil

Lucas Pure Synthetic Gear Oils are super-slick, long lasting lubricants designed especially for heavy duty or high performance applications where regular gear lubricants just aren't good enough. They contain a special additive package that increases lubricity and insures less gear noise and longer bearing life. Excellent for use in limited slip differentials. Designed to stand up to high temperatures without losing its lubricity. 1 Quart.

LUC-10047 .....**Syn SAE 75W-90**
LUC-10121 .....**Syn SAE 75W-140 (pictured)**

K&N Oil Filters for Harley Davidson and BMW

K & N oil filters for Powersports are 'TUV' product endorsed and 'TUV' factory production monitored. This means every K&N oil filter equals or exceeds all OEM specifications. These oil filters contain a modern synthetic filter media designed for ultimate flow with less pressure drop, yet they're engineered for outstanding filtration. All K&N oil filter for Powersports that are 'spin-on' feature a heavy-duty metal can with a 17mm nut affixed onto the end, which allows for easy installation and removal. The 17mm nut is crossed-drilled, so racers can safely wire the filter to their bike. So, if you want excellent oil filtration for your bike, these K&N oil filters are what you need.

K & N Air Filter Oil

K & N Air Filter Oil has been specially formulated to work in combination with the cotton fabric in K & N air filter elements, providing a superior air-filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is eventually cleaned with K & N's Air Filter Cleaner and Degreaser.

KNN-99-0504 .....6-oz. aerosol can- red **$6.13**
KNN-99-0516 .....12-oz. aerosol can- red **$6.46**
KNN-99-0704 .....Sealing grease.....**$7.11**

K & N Air Filter Cleaner and Degreaser

K & N Air Filter Cleaner and Degreaser is formulated to clean K & N (cotton and foam-fabric type) air cleaners and air filter elements. K & N Cleaner and Degreaser works to dissolve oily dirt built up, and can be washed away with water.

KNN-99-0621 .....32-fluid oz. (squirt bottle) **$9.07**
KNN-99-0635 .....1-gallon bottle **$23.24**

Stop & Go Motorcycle & ATV Tire Repair Kit-Tube & Tubeless

This assortment of patches and plugs provides you with the tools & materials needed to repair and re-inflate your tire on the spot. The enclosed Rasp and Split-Eye Tool allows you to plug your tubeless tire on the wheel. No bending or twisting is necessary. You simply push the plug straight into the puncture and pull the tool straight out. A twist of the Rasp tool inserted in the needle eye releases the plug. A valve cap/core remover and replacement core is included to insure that the re-inflation process goes well. Even a towel with waterless hand cleaner is included in this vinyl zippered pouch measuring 5" x 7 1/2" x 1" and weighing only 1 lb. This kit also features (4) CO_2 canisters and adapter.

SNG-1066.....**Tire Repair Kit** **$28.95**
SNG-1091 .....**3 Extra Canisters** **$7.50**

Stop & Go Pocket Tire Plugger Plus 4 CO_2 inflators 16 Gram

Why be stranded? This kit gives you the ability to perform the most effective repair possible without dismounting your tubeless tire. With the addition of (4) 16 gram canisters of 100% pure high velocity CO_2 gas and the 4" fully flexible adapter with solid brass fittings, this kit becomes everything needed to repair and re-inflate your tire. This kit measures 5" x & 7-1/2" x 1" and weighs only 18 ounces.

SNG-1001.....**Tire Plugger Plus 4 Canisters** **$45.95**
SNG-1091 .....**3 Extra Canisters** **$7.50**

Stop & Go Pocket Tire Plugger-Tubeless

This revolutionary new device easily installs mushroom shaped rubber plugs into all tubeless tires while staying on the wheel. The Plugging device 'drives' the plug into the hole with a turning of the hex wrench. The plug expands under pressure to fill the punctured area. A firm pull on the stem with your pliers seats the mushroom head on the inner wall allowing no air to escape. This technology insures maximum reliability while reducing your downtime in any situation.

SNG-1000 .....**$29.95**

Guaranteed Lowest Prices!

BestRest Tire Iron Bead BreakR

The BeadBrakR is a levering device that incorporates a trio of tire irons into the actual mechanical design. When the bead is free, you break down the device and use those same tire irons to remove the tire from the rim. Compact, lightweight, and easy to assemble using quick release ring pins, the entire kit fits in your hand and rolls up nicely in the storage pouch. Overall size of the BeadBrakR and all the accessories is just 2" thick x 5.5" wide x 12" long!

BR-TIBB **$150.00**

BestRest Cycle Pump Adventure Model

At last there's an EASY way to fill a flat tire or adjust your tire pressure on the road! The CyclePump uses a powerful 12 volt electric motor and a high quality metal compressor assembly that's specially hardened for motorcycle applications. The CyclePump is proudly made in the USA from precision crafted aircraft-grade aluminum alloys. The aluminum case is less than 2" high x 4" wide x 6" long. With all the wires and power connectors and hose the storage pouch dimensions are 2" x 6" x 9". Weight is 34 ounces.

BR-CP-A **$100.00**

BestRest Oil Jug Triple Pack

Carrying a standard 1-quart plastic oil container on your bike wastes precious space. OilJug™ is the answer. These compact high density polyethylene jugs comply with FDA regulations and they're ideal for transporting, storing or packaging a wide variety of products, including oils. They can be filled with your favorite lubricant or other liquid and reused hundreds of times. The Triple Pack includes 1 each of a 4 oz, 8 oz, and 16 oz jug.

BR-OJ3 .....**$10.00**

Jiffy-tite Quick-Connect Fluid Fittings

Guaranteed Lowest Prices!

Jiffy-tite's revolutionary quick-connect fluid fittings provide unsuprassed performance under extreme conditions. These **all-metal** fittings easily disconnect and connect by hand in seconds! Made of lightweight, high quality aircraft aluminum, brass valves and stainless steel ball bearings, they are corrosion resistant for extra long life. Because of this unique design, there are no servicable parts and you will never need to re-build or replace these fittings. Perfect for fuel lines, they have a 100% leak proof seal once disconnected. The fittings will work with any style hose except Teflon.

This is a perfect replacement for BMW's problematic OEM quick disconnects. The 21505E is a 90° socket that has been used on the LT models. How you choose to do the install will determine whether a straight or 90° is needed.

JIF-21505.....5/16" Straight- Socket Assembly, Barbed End **$25.09**

Speed Bleeder®

Bleeding your brake or clutch line has never been easier or simpler! Revolutionary double patented Speed Bleeder replaces the original bleeder valve in your caliper/wheel cylinder with a spring loaded one way ball and check valve design. The uniqueness of the stainless steel check ball is that it opens to allow the old fluid and air out, then closes automatically between pumps preventing the old fluid and air from re-entering the line. **Only $7.00/each**

Visit www.racerpartswholesale.com for a complete application guide.

Prices:

Pricing and shipping policy are subject to change without notice. All invoices will reflect the current prices. Visit **www.racerpartswholesale.com** or call 1-800-397-7815 for current pricing.

LIMITED WARRANTY

MOTOR RACING AND MOTORCYCLE RIDING ARE EXTREMELY HAZARDOUS. INJURY OR DEATH CAN AND DO OCCUR. THE PRODUCTS WE SELL HAVE NO WARRANTY OR REPRESENTATIONS MADE ABOUT THEIR ABILITY TO PROTECT AGAINST INJURY OR DEATH. THE USER ASSUMES THAT RISK.

We're racers and riders. Sometimes we go too fast. Racer Parts Wholesale and its agents and subcontractors are not responsible or liable for errors or omissions. Prices are subject to change without notice.

RACER PARTS WHOLESALE (referred to as the "warrantor") will repair or replace products proven to have a defect in materials or workmanship with new or refurbished parts free of charge in the United States within 30 days of the original purchase. We do not warranty any electrical components or assemblies. Manufacturer warranties, if any, will apply. Our warranty is extended only to original purchaser. A purchase receipt or other proof of date of original purchase will be required before warranty service is rendered.

The warranty only covers failures due to defects in materials or workmanship which occurred during normal use and does not cover normal maintenance, including but not limited to normal wear and tear of the product incurred during its intended use. It does not cover damage which occurs during shipment or failures which are caused by products not supplied by the warrantor or failures which may result from accidents, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, set up adjustments, modifications or commercial use, or other business or rental use of the product or damage which is attributable to acts of God.

Limits and Exclusions

There are no express warranties except as listed above. THE WARRANTOR SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE APPLICABLE WARRANTY AND SET FORTH ABOVE. Some states do not allow the exclusion of limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after warranty, you may contact the warrantor at the following address: 411 Dorman St., Indianapolis, IN 46202-3647, U.S.A. Repair work which does not involve defective materials or workmanship is not covered by this warranty. Costs of such service, including shipping charges, are the responsibility of the purchaser.
